HARRY THAW FREED ON \$35,000 BOND; STATE ANNOUNCES IT WILL APPEAL

CROWDS CHEER AS DECISION IS MADE

New York, July 16.—Harry K. Thaw, adjudged sane last Wednesday by a jury, was given his freedom today by Supreme Court Justice Peter A. Hendrick who announced that he had adopted the jury's verdict.

The state immediately served notice of appeal and Justice Hendrick fixed Thaw's bail at \$35,000 to insure his presence at future proceedings. A surety company was prepared to give the bond and Thaw was taken from the court house to the judges chamber so that details might be arranged.

A crowd that numbered several thousands lined the sidewalks and overflowed into the streets around the court house cheered Thaw and applauded wildly when he appeared on the court house steps.

In announcing his decision Justice Hendrick took occasion to comment unfavorably upon the action of alienists who had assisted Thaw.

GERMANS NEAR POLISH CAPITAL

Berlin, July 16.—Via London.—The German forces have crossed the Windau river to the north of Koltynian, in Courland.

London, July 16.—A statement given out today by the British official press bureau says: "A telegram from the government of Nigeria reports that on June 29 the Entente allied forces occupied Ngauru, an important town in Central Kamerun. Our losses were two rank and file killed and eight wounded."

Berlin, July 16.—(Via London)—Dispatches received here from Austrian headquarters said that after a heavy bombardment of the Russian positions the Austrians have crossed the Dniester river at Uchibiskupie, on the Russian border, where Austrian crown lands of Galicia and Bukovina and the Russian province of Besarabia meet.

London, July 16.—Field Marshal Von Hindenburg has again come into the limelight which brings the Germans within the zone which they reached last winter when the Polish capital was saved by a Russian counter offensive.

Petrograd appears not to be greatly disturbed over the latest German drive, claiming that much severe frontal fighting must be done before Warsaw can be surrounded by the forces of Field Marshals Von Hindenburg and Von Mackensen.

In the southeastern Galicia the Austro-German armies are making their way across the Dniester river under a heavy Russian artillery fire which has prevented the troops crossing in several places. Fighting again is coming lively in the most distant portion of the Russian front—in the Caucasus where both the Turks and Russians claim successes.

Washington, July 16.—Count von Bernstorff, the German ambassador told Secretary Lansing today the German reply to the last American note on submarine warfare presented opportunity for settlement of the controversy by further diplomatic negotiation. The ambassador conferred with Mr. Lansing an hour and talked later with Assistant Secretary Phillips. In the absence of President Wilson, secretary Lansing was unable to inform the ambassador what course the United States would pursue in its next note, but he heard with much interest Count von Bernstorff's explanation of the purposes of the German government to satisfy public opinion at home on the maintenance of submarine warfare, and at the same time, to maintain friendly relations with the United States.

Count von Bernstorff declined to reveal what had taken place at today's conference beyond saying it was a very satisfactory interview and he felt encouraged to believe the danger of a rupture in relations had been reduced.

The ambassador sent a long report on his visit by wireless to the Berlin foreign office. Secretary Lansing would make no statement on the conference.

ITALIANS FORTIFY POSITIONS

Verona, Via Paris, July 15.—The Italians are strongly fortifying all positions captured from the Austrians. Trenches are being excavated and platforms constructed on which to mount heavy guns. Many places along the frontier have been transformed into entrenched camps, strongly garrisoned, and with immense supplies of ammunition. The troops are engaged in fortifying dominant parts.

INVESTIGATE EXPLOSION

Louisville, Ky., July 16.—Believing the explosion which wrecked the plant of the United Safety Powder Company, near Louisville, last Monday afternoon, and which caused the loss of four lives, including that of Robert S. Waddell, the outside agency, an exhaustive investigation into the circumstances has been ordered by the board of directors of that concern. Until about a month ago, and since the beginning of the war in Europe, the plant has been under lease to a Canadian company manufacturing high explosives.

HIGH WATER DAMAGES BLOCKS IN KENTON, LIMA AND COLUMBUS

WHAT FLOOD DID

LIMA—Two lives lost, property loss estimated at half million, twice that of 1913 flood. Two hundred houses under water. River is falling.

COLUMBUS—Levee breaks, lowlands and six blocks are flooded. Several bridges are threatened.

KENTON—Scioto river passes 1913 flood stage. Waterworks are submerged and city is without fire protection. One hundred families are rescued through night in boats. Loss not estimated.

CLEVELAND—Heavy rainfall puts light plants out of commission. Many boats are torn from moorings on lake.

Unprecedented rain-fall in the northern and central portions of Ohio late yesterday afternoon and last night caused the worst mid-summer floods in history in many sections.

Unconfirmed rumors say that many people have lost their lives in the town of Foraker in the Scioto marsh near Kenton.

Two are known to have perished at Lima, where the Ottawa river, ordinarily a small creek, ran through the city, taking away many bridges and viaducts. More than 200 houses were under water there early this morning; and hundreds of families were driven to the hills around the city. The property loss in Lima will exceed a half million dollars, twice as much as the loss during the 1913 flood.

At Kenton the water passed the 1913 flood stage, doing much damage in and out of the city.

Dayton reports an unusual rainfall with much damage to crops in the lowlands.

Many boats were torn from their moorings in and around Cleveland while several light plants in the city were put out of commission.

Latest reports from all affected sections say the crest has been reached.

Levee Goes, Six Blocks Are Flooded At Columbus

Columbus, July 16.—Leaks were discovered in the levees at Mound street and Greenlawn cemetery this afternoon. Large forces of men were put to work in an effort to check it by placing sand bags in the breaches.

Columbus, July 16.—High waters in the Olentangy river here today broke through the old city levee on the north side and flooded six city blocks, causing damage estimated at several thousand dollars.

The flooded portion extends from Fifth to King avenues along the east bank of the river. A large city playground and hundreds of small garden plots used by children have been completely covered by the rising waters. The river has reached a 13 foot stage, the highest since the 1913 flood.

The levee which was broken down by the waters had been weakened by the 1913 flood and had never been repaired. The flooded sections is not a residence district, but is bordered on higher ground by North Side homes.

The Scioto river at the Mound street gauge rose from 5.5 feet at 6 p. m. last night, to 13.2 feet at 9 a. m. today and was still rising at the rate of about a foot an hour. The danger mark is 19 feet.

In the hour between six and 7 a. m. today the river's rise at Mound street was a foot and a half. In the next hour it rose a foot, and between 8 and 9 a. m. the rise was 1.2 feet. Although he expects the Scioto river to rise two or three feet higher today, Forecaster Smith at 9:30 a. m. announced that the crest of the rapid rise of the river was past and that the water would not reach the flood stage at the Mound street gauge by two or three feet.

The water over the storage dam rose two feet during the night, from 2.2 to 4.3 at 8:30 this morning. Previous to the 1913 flood, when the maximum rush of water over the dam was 12.8 feet, high mark was 5.6 feet.

In the 24 hours ending at 7 o'clock last night the rainfall in Columbus amounted to 1.25 inches. The Thursday afternoon rain

BERNSTORFF TO MEET WITH LANSING TODAY

Washington, July 16.—Count Von Bernstorff, the German ambassador, had an engagement today to confer with Secretary of State Lansing on the situation that has arisen between Germany and the United States over Germany's method of submarine warfare.

The ambassador was to present the German view of the last United States note for settlement of the problem of submarine warfare. Such an adjustment would bring about a definite understanding not only as to Germany's submarine campaign, but also as to England's order in council which Germany holds responsible for her submarine activities. Count Von Bernstorff, it is understood, hopes that there may be a possibility of mediation on the part of the United States between Great Britain and Germany which eventually may result in the establishment of the freedom of seas for which the United States is contending.

That Germany is willing to join the United States in an effort to establish the American principle was emphasized in the latest German note, according to

GERMAN SUBMARINE U-51 GOES DOWN

London, July 16.—The German submarine U-51 has been sunk in the Black Sea by Russian warships, according to information received from Yalta, a Bulgarian port on the Black Sea, by the Athens correspondent of the Exchange Telegraph Co.

The submarine U-51 gained fame by eluding the British blockade and passing through the Strait of Gibraltar. It left Wilkesbarre, the great German base, to operate against the Allied fleet in the Dardanelles and was reported to have been successful in its mission. The U-51 has been credited with sinking several vessels belonging to the Allies, including the British battleship Majestic.

The British blockading fleet off Gibraltar was reported to have been warned of the approach of the U-51, but failed to catch the underwater

Officer, Disfigured In War, Releases Fiancee

Vienna, July 16.—(Special)—The pathos of the great war finds a striking expression in the following letter from one Lieutenant Wirico, of the Austrian army, to an intimate friend in Vienna.

"This will be my last letter," he writes, "and I address it to you, because you will understand me better than would poor little Winni, my fiancee. I wish you to explain to her as gently as possible the reasons why we can never meet again. If she asks for my address do not give it to her. She would only send me a long tear-stained letter, which would rend my heart with grief."

The officer then proceeds to describe a battle in which he was severely wounded, and continues:

"Two days later I regained full consciousness in the hospital. The first thing I was told was what I wished the least to hear—that I would not die just yet. I would live on, mind you, with half of my face cut away. A saber stroke had made one big warped scar on the once handsome features of dashing Lieutenant Wirico."

"It is all very well for people to say that wounds received in battle are to be valued higher than medals, and that a soldier should glory in his scars. But only once have I dared to gaze at my hideously distorted face in a looking glass, which the nurse held over me. That was enough; little Winni must never see me thus. She must remember her lieutenant as he looked at their last parting."

Like To Read? Then Ask State For Books

Columbus, July 16.—Columbus, Ohio, has gone into the business of helping vacationists to have a good time.

State Librarian C. G. Galbreath announced today he will send an assortment of books, picked particularly to suit the reader's wishes, to any part of the United States for the vacation period. The only cost to the individual will be transportation charges. They may be sent either by express or parcel post and may be returned when the vacation is over. The traveling library department has charge of the work, and applications for books should be made to it at Columbus.

We have made this arrangement to suit persons who are going to the country or any other

location who like to read while resting but who do not wish to fill space in their traveling cases with heavy books," said Librarian Galbreath. "Usually these shipments may contain a number of fiction books, but we do not make up all-fiction assortments. 'Any person who wishes to take advantage of this arrangement may write to the state traveling library, stating the kind of books he would prefer. We will then send him a list of available volumes and he can make his choice. We will pack these in boxes and ship them to him 'collect.' The plan is an adaptation of the usual work of the traveling library, applied particularly to vacationists."

Historians have been in great demand at the state library since

the European war began, Mr. Galbreath declared. This demand extends to books of travel, describing the lands now involved in conflict and those treating of the social and industrial life of the warring nations.

Plans are being made by the library to develop community libraries under the supervision of county school superintendents when school starts in the fall. Books will be supplied from the traveling library, being sent to the community stations for limited periods.

TWO GIRLS DROWN IN OHIO RIVER

Pittsburgh, July 16.—Lillian Elkins, aged 15, and Anna Rosenberg, aged 16, both of Sawickley Heights, a suburb, were drowned in the Ohio river near Lock No. 3, shortly before last midnight, when a canoe in which they were riding, capsized. BAD SCIOTO COUNTY ROADS ALTOGETHER UNNECESSARY DECLARES STATE OFFICIAL; WOULD HAVE DRAGS USED

Expert advice on road building and road maintenance was furnished to an interested assembly at the Columbia theatre Friday morning by G. F. Rudisill, state director of the Ohio Good Roads Federation and an enthusiast on the subject of good roads. At the same time, the speaker aroused enthusiasm on the proposition to continue the permanent improvement of the inter-county and main market highways, and the care of other roads.

Mr. Rudisill showed how, by a minimum outlay of money, the worst mud road in Scioto county could be made into a passable highway, and offered convincing proof in the way of figures, facts and photographs to substantiate his statements.

He persistently pounded into the ears of his listeners how the use of a "road drag" on all gravel and dirt roads in the county after each rain will do away with mud roads everywhere. "Drags" costing from \$6 to \$25 in the hands of competent farmers along the road at intervals will accomplish what thousands of dollars

of public money have failed to produce in the past several years, he claims.

Ruts and chuck holes are purely the result of negligence, said he. He used a homey illustration to explain how dragging the road will eventually produce a hard, smooth surface, upon which rains will have but little effect. All dirt has a certain percentage of cement in it, a statement which he has proven, he says, by dipping a ball of dirt into water, letting it dry, and repeating the same process a dozen times or more. The result is a hard rock with which "it would be safe to go to war."

Dragging the road after each rain is a similar process. Each time it rains, the road is dragged for the next rain, and each time the surface is hardened and made more even.

Guernsey Sets A Good Example

Practical demonstration of this has been in Guernsey county, according to the speaker. A few years ago, the county voted a large bond issue to provide for the improvement of the National Pike from one end of the county to the other. Farmers in the remote regions from the pike were aroused to indignation by what they termed neglect of the other roads in favor of the National pike. The Good Roads Association of Ohio, anxious to have the improvement of the pike go through, heard their complaints and proceeded to show that they were not warranted.

In and around Cumberland, a small town isolated by mud roads, they formed a Good Roads Association, composed of 100 members, each paying a \$1 a year dues. They started to work on the roads with drags, and in less than a month the mud roads were replaced by good roads.

On Scioto county's tax duplicate of \$50,000,000, approximately \$25,000 was raised. Three-fourths of it went into inter-county roads and one-fourth into main-market roads. Scioto county, therefore, raised about \$18,000 for inter-county roads. In the equal division of the total among the eighty-eight counties, however, this county received about \$27,000, \$9,000 more than it paid in. This does not take into consideration the amount received for main-market roads. The same proportion will hold good this year on a three-tenths mill levy, the approximate amounts being \$12,500 paid in and \$19,000 received back. Scioto county, then was getting the best of the deal, and should continue to improve its roads as fast as it could under the present arrangement. Emphasis was made on the fact that the state maintains the roads after they are completed.

Mr. Rudisill's repeated admonition was "Improve one road its entire length, and then forget it. Improve the next one its entire length, and then forget. Improve the rest of them the same way, and as fast as they are completed, forget them. Don't improve in patches.

Mr. Rudisill then told how Main Market Road No. 2 from the east Ohio line in Mahoning county to Lake Erie was improved its entire length by concerted action through the various counties, the entire ninety miles being now open for traffic, permanently improved.

Urges Improvement Of Scioto Trail

This brought him up to the real object of his visit here, the improvement of Main Market Road No. 8, recently named the "Scioto Trail" or better known here as the Chillicothe pike, from the Ohio river to the Pike county line which he urged with all the power at his command. Similar meetings are being held in every county from the Ohio river to Lake Erie and it is hoped to have the entire distance, almost three hundred miles, permanently improved within the next two years.

Near the close of his talk, Mr. Rudisill was interrupted with questions from his listeners, showing that his remarks had created intense interest among them. It is likely that his ideas on road building will be put into practice on some of the dirt roads leading into this city within the near future.

Among those present were County Commissioners-elect Geo. Hill and Charles Worley, John W. Bauer, Mark W. Selby and Albert Marting of the good roads committee of the Board of Trade, Senator W. D. Tremper, J. W. Bauman, John McMillan, J. C. Cranston, Samuel Hershaw, Samuel Rice, Sampson Eckhart,

George Pfeiffer, Mark A. Crawford, Dr. J. S. Rardin, Fred N. Tynes, Henry Cline, M. A. Coe, Richard Barry, P. E. Selby and H. Clay Murfin.

PRISONERS ARRAIGNED; ONLY ONE ADMITS GUILT

RIDAPILE CONES

Germans irritate and enlarge the blood vessels, which creates piles. A new treatment for piles is a recent discovery of a New York Specialist. This scientific remedy contains a powerful non-poisonous germicide and anesthetic which removes the cause that creates piles without inconvenience to the user of these applications. By the use of Ridapile Cones relief is quickly obtained; pain banished; itching immediately ceased; bleeding is stopped; protruding piles and hemorrhoids reduced after a few applications of the Cones when used according to directions, restoring these parts to their healthy condition. Ridapile Cones remove the cause by killing the germs. The Cones exert a healing and soothing action and a trial brings immediate relief. Ridapile Cones do not contain OPIUM, MORPHINE, COCAINE, or other NARCOTICS. PRICE 50c. AND \$1.00. Flood & Thacker's Drug Store. To prove the merit of Ridapile Cones write for free trial sample to Commercial Products Corporation, 151 East 10th Street, N. Y.

Arraignment of the persons recently indicted by the grand jury, 5th last, also pleaded not guilty. His bond was fixed at \$500. Pleas of not guilty were entered by Isaac Church to two indictments, one charging him with shooting with intent to kill, and the other with carrying concealed weapons. His attorney, N. B. Gilliland, requested that his bond be fixed at \$300, but Judge Thomas made it \$500 in each case. He is accused of shooting William Ehrheart near Star Yards last Decoration Day. Attorney A. T. Holcomb, Sr., was appointed by the court to defend Orville Merrett, who pleaded not guilty to the charge of robbing Perry Matheny on June 17th inst. His bond was fixed at \$500. Roland Crawford, indicted on a charge of stealing a boat belonging to Robert C. Lockbaugh on June 19th last, pleaded not guilty. F. T. Moreland was appointed to defend him. Prosecuting Attorney Mickelthwait indicated that all of the cases would come to an early trial, probably next week. Sheriff Smith stated this afternoon that no arrests had been made on the secret assault on Warden Evans at a West

COAL MEN QUIT FOR FUNERAL

Pittsburgh, July 16.—Coal operators and miners in Western Pennsylvania and West Virginia will tomorrow pay tribute to the memory of Dr. Joseph Holmes, former director of the United States Bureau of Mines, whose funeral will be held in Washington at that time. Dr. Holmes died Tuesday in Colorado, of tuberculosis. Officials of the West Virginia-Pittsburgh Coal Company announced last night that the mines of the company would be closed all day, while officials of various other coal and coke companies, in conference today, expected to take similar action.

ACCEPTS RESIGNATION

Columbus, July 16.—Governor Willis today received and accepted the resignation of J. H. Seecrest, Lima Democrat, as member of the State Liquor Licensing board. Seecrest expects to go into law practice in Columbus with S. A. Hoskins, recently resigned as civil service commissioner, as a partner. The licensing board will be legislated out of existence late in August.

NOTHING LIKE HATE.

Between the roar of cannon and profound German professors may be heard loudly discussing the self-addressed question: "Why does all the world hate Germany?"

The best answer thereto, to use some contemporary slang is: There ain't no such animal. For the learned professors to profoundly debate their own assumption is an aggravated and warped conceit. Indisputably a large part of the world is, just at the present time, hostile to Germany, and goes without saying, since a considerable portion is now at war with her and it is altogether natural in such a conflict prejudice and bias of nationality and alliances should develop against her. But the professors make no allowance for this. They make the broad assertion that every other race hates the Germans now, did before the war began and is going to hate them so after the war is over. And all of which, we insist, is mistaken and unjust. As between races there is no more prejudice against the German than against any other, and prejudice is a long way from hate. Hate is based upon some knowledge and some cause, prejudice most often springs out of total ignorance and has no basis of fact; it is a sign of the imagination, as it were, and disappears in the face of knowledge and intercourse. Practically every nationality, we will illustrate by saying, has felt the effect of prejudice in this country. The Germans have experienced it in no such bitterness as that with which it assailed the Irish in the past. Up to "the fifties," when New England was the greater part of the country, it was common "that no Irish need apply." Today, where they are reckoned in large bodies there is more prejudice against the Jews, the Italians, the Poles, and the Greeks, to say nothing of the Hungarians, Armenians, Croats, Russians and Turks, more a thousand times, than against Germans. As a matter of fact, the Germans are much admired, because of their thrift, industry, love of home and generally law-abiding conduct. And while it is not to be denied that a majority of Americans sympathize with the Allies as against Germany, the preponderance is by no means as great as is assumed and would be much less were it not for the unfortunate truth, that mistaking the clamor of the metropolitan press for more than it voiced, the German press jumped to the conclusion the whole nation was against the Germans and, by the very fury of protest drove an impressive element, that was disposed to settled neutrality to sympathy with the other side, not realizing in their zeal for the cause of the Fatherland that the surest way to alienate sympathy is to mistrust it and reproach with unfriendliness.

In the midst of present clash and rancor it is impossible, perhaps, to appreciate this truth, but when the world again comes to peace its exactness will gradually come to appreciation. That as neighbors and acquaintances the Germans are esteemed and liked as well as any others, perhaps, even a bit more, because as such least of all are they given to wrangling and contention and their peaceful conduct will seem all the sweeter after the dreadful conflict is over.

THE OHIO LIQUOR BATTLE.

With both sides girding their loins and preparing for a finish fight on the liquor question in Ohio this fall, it looks as though there will be enough excitement to suit the most exacting person. We believe that the majority of Ohio citizens are growing heartily weary of these liquor fights and we also believe that there will be a decisive settlement one way or another so that the matter will not be injected into state affairs for years to come.

We suppose that, as usual, Scioto county, will be one of the storm centers of the controversy. That seems to be our fate down here, with leaders on both sides of national prominence living in our midst. While we believe that each man should stand up valiantly for what he believes to be right, we do hope that there will be a minimum of bad feeling over the matter and a minimum of personal abuse and vituperation. No votes are made in this way, no good comes of it, and the only result is a community divided.

There will be no change in the attitude of The Times in this campaign from that of the past. We consider it our mission to print the news fairly and impartially and to afford opportunity to all sides to express their opinions and their arguments in our advertising columns. That has been our attitude on all public questions and we accept legitimate advertising from responsible persons and political parties, regardless of our own opinions or beliefs. In the campaign over the prohibition amendment this fall, we will report as news, fully and without bias, the various activities and we will accept paid advertising from those engaged in the controversy, subject to our own supervision and judgment as to its lawfulness. We do not propose to allow any man or set of men to get us in jail if we know it, nor do we propose to be caught up again for libel suits for advertising matter, if we can help it.

We deem it advisable to make this statement early that there may be no misunderstanding in any quarter.

"We ain't no engineer," civil or otherwise, but it strikes us the plan to leave openings in the fuel wall would be vastly improved by carrying the streets over, instead of through.

HOT WEATHER HINTS.

AUTOMOBILE LIGHTS.

With the completion of the paving on the Chillicothe pike to a point more than five miles out of town, and the blocking of other roads, the former roadway has become the favorite riding spot for automobiles and dozens and dozens of them are using the pike each evening, going out as far as the underground crossing and then returning to the city. It makes a most delightful ride and we are glad to see people enjoying themselves.

There is one thing about it however, and that is the most extreme caution should be used in order to avoid accident. The speed limit should be strictly adhered to and the most careful attention given to the running of the car. The extremely bright lights on cars too make for a dangerous situation after dark. It is almost impossible for a driver to see where he is going when approaching a car with powerful electric lights, and they are nearly all electric these days. With one car trailing another, the danger is added to that much, and we very much fear that there may be a sad accident some of these days unless attention is given to this matter.

Slow down always in passing a car coming towards you, have your car under perfect control. In bad places, or all very narrow roads it is a good idea for one car to pull over and throw on the dimmers or side lights. It may prevent a collision.

And another thing - If any man can show why it is necessary to travel with a cut-out working on paved streets or roadways, we will give him a chance. They simply go to make the days and nights hideous and cause dust to make traveling more uncomfortable for other people. Their value as an aid to locomotion has long since been disproved and many of the new models are not having them at all.

Be careful. Do not drive too fast. Pass each other slowly. Do your share towards making automobilizing safe, sane and comfortable.

If the innumerable army of Times kids knew what was going to happen to them, what a mighty clamor they would send up. It was learned yesterday, that when the food wall is extended, that portion of the old, which blows in front of The Times office and forms a roosting place for the nesties, is going to be blown up. Dynamite will have to be used in the process and may be the kids will get some compensating enjoyment out of that.

New York, July 10.—Lillian Lorraine, once called by Florence Ziegfeld himself his prettiest show girl, has introduced a novelty to Broadway—the demerol. If you will, he divorced her. Some months ago Miss Lorraine married a young business man of Chicago.

After several weeks of honeymooning around New York they both decided that married life was not what a lot of the long-haired poets said about it and—well one night Miss Lorraine tossed her new hubby's things out of a very handsome apartment house.

Just recently she has sent out these printed announcements: "Lillian Lorraine, formerly with Ziegfeld's Follies, announces that she will soon sue her husband, Mr. Griesheimer, for divorce."

The first capture made for the Hippodrome by Charles Dillingham, who will run the big house next year was John Philip Sousa, the famous bandmaster. He will bring his band of sixty-five men to the Hip and will render music instead of the orchestra. Sousa is now preparing a march to signal the opening of the Hippodrome.

(men) for whom they care. I should advise that you do not let the man in the case know anything about your intentions. If you do he will take to the tall timber.

Dear Miss Wise—Would you kindly tell me how to remove egg stains from a blue serge skirt?

Sponge with clear alcohol lightly until the coating of the stain is removed. Then touch with ammonia to restore the color if it has been changed. Blue is capricious and unruly sometimes.

Dear Miss Wise—Please tell me how to make good lemonade. I know how to squeeze the juice in water and sweeten it, but that isn't very good.

Paré 3 lemons very thinly and put peel in a pitcher; next take off every bit of pulp from the lemons, otherwise the lemonade will have a bitter flavor. Slice the lemons very thin, and after taking out all the pulp, put the slices in the pitcher, add 2 ounces of lump sugar and pour on 2 1/2 cups of boiling water. Cover the pitcher and let it stand until lemonade is cold. Then strain it into a clean pitcher, pressing the lemon slices well. Add a few more humps of ice and 2 slices of lemon to it before serving.

Dear Miss Wise—I am 24 years of age and have been going with a young lady for about three years. I do not love this young lady, but respect her highly and have told her this much. I have told her that I consider we are both losing time, but she still thinks things will come her way. Now what is a young man going to do up against a proposition like this. Understand me right, it is not my fault that we do not dissolve courtship. I will thank you for your answer.

Both of you lack courage and grit. My advice to you is to get off the fence and follow the road that you want to take.

Dear Dolly—Please tell me if "tinker's dam" is a cuss word. I heard a certain person say he didn't care a tinker's dam what I did, and it made me sore.

A "tinker's dam" is a wall of dough or soft clay, raised round a spot which a plumber, in repairing, desires to flood with solder. The material of this dam can be used only once, and is thrown away after this very temporary period of usefulness. Hence the well known proverb.

Dear Miss Wise—Is there anything I can use to prevent excessive perspiration, especially under the arms. I just ruin every-

thing I put on, and usually look like a drowned rat. Must I endure this all summer?

A WARM MEMBER.

I think everybody perspires more or less this hot weather. The use of powders, liquids, etc., which really prevent perspiration under the arms is not to be advised. The pores of the skin are the openings through which the waste matter of the skin is thrown off. Close these little pores and the poisonous matter perforce must remain in the body, or the kidneys and skin in other parts of the body are overloaded in their effort to throw off the waste. By repeated bathing of the armpits with cold water, then well drying and applying a good talcum powder and by attention to the general health, excessive perspiration should be overcome. Keep the pores of the skin of the feet active. Much perspiration should be thrown off here. If you will rub a little soap under the armpits each morning then dust with talcum powder, it will help some.

Dear Miss Wise—Do you believe a couple at forty is too old to begin life over on a farm? My husband and I have never known anything but work, and hard work in factories, and do not believe that the work on the farm would be much harder. What are our chances of success, and do you believe we would be contented with country life?

WOULD-BE-FARMERS.

You are not too old to achieve success, if you are possessed of other requisites for success. I should imagine if you were to buy a small place of a few acres, and do intensive farming you would be more likely to succeed than by attempting something bigger. Have some one who knows about soil choose your place, and get as much information as you can from various agricultural journals and magazines. If your needs are not many, undoubtedly you can be very happy on a little place. It is the most independent life in the world, and even if you do not make much money, you are assured of a comfortable living, and a home in your declining years. I cannot say whether or not you would be contented with life in the country, there are some temperaments that require the excitement of community life—you must make-up your mind not to be lonely before you decide. To some country life is the most ideal of all, but I realize that a great many people do not feel that way about it.

SOCIETY

The M. R. W. Club was delightfully entertained last evening at the home of Misses Edna and Madge Marshall, on Eleventh street. The members assembled on the porch early in the evening and later were invited into the parlor, which was beautifully decorated with pink Cupids strung on pink ribbons. A large cupid in the center was inscribed with the names, "Myrtle Williams and Albert Hill, and the date July 20th, 1915, the wedding friends know of their engagement, but the date of the wedding came as a great surprise. The evening was spent in piano and vocal music. The hostess served delicious pink and white ice cream and cake. The favors were pink heart-shaped cards with the initials and date, "M. W. and A. U., July 20, 1915." Several parties are being arranged for the bride-to-be. Those present were: Misses Myrtle Williams, Marie Torgesen, Margaret Haas, Margaret Goltz, Elsie and Della Smith, Esther Shea, Lillian Jackson, Edith Knott, Katherine Conley, Edna Herman, Clara Marshall.

Mrs. M. W. Brown's class, The Sunshine Circle, of Trinity Methodist Sunday school, met yesterday afternoon at the home of Mrs. Blackburn, of Gallia avenue. The assisting hostesses were Mesdames J. L. Cressy, J. P. Smith, Shumway, Ella Gable, Newland. There were twenty-eight members and five visitors. Mrs. J. M. Stockham, who recently returned from a delightful visit through the West, gave an interesting talk on her trip and had many pretty postcards to illustrate her talk. Arrangements were made for a picnic to be held at Millbrook park, August 19th, when an elegant supper will be served. The hostesses served delicious refreshments.

Miss Jessie Bachford, of Dry Run, who is finishing a twelve weeks' course at Ohio University, Athens, Ohio, spent Saturday and Sunday at the home of Rev. Carroll at Murray City, O. Their daughter, Miss Bettie, will accompany her home for a two weeks' visit among her many friends, who will be pleased to welcome her. Rev. Carroll was former pastor of Portsmouth church.

Miss Florence McDaniel and Miss Sara Phillips have returned from Friendship, where they spent a week at the lavender farm. Miss Blanche McDaniel and Mr. Harry Emble spent the weekend at the lavender home.

Mrs. Charles Pugh, of 1621 Highland avenue, has gone to Harrison, Ky., to visit friends until Saturday.

ARGUMENTS IN PLUMBERS SUIT TO BE ON JULY 27

Examination of witnesses in the injunction and dissolution suit against the Building Trades Council of this city was concluded about 10 o'clock Thursday afternoon.

Judge Tarbell fixed the date for hearing the arguments of the attorneys for Tuesday morning, July 27th. In the meantime, he will review the evidence and exhibits, and result the legal authorities at his home in Georgetown. Among the exhibits are the constitution and by-laws of the Building Trades Council and its auxiliary organizations, the constitution and by-laws of the Master Plumbers' Association, and copies of letters alleged to have a bearing on the case. Attorneys will also file briefs in the interim. A decision should be forthcoming soon after the arguments of the attorneys are made.

Before adjourning court, Judge Tarbell requested that a list of the union men in each craft be furnished him; also an estimated number of men employed in each craft in the city, union and non-union. Union officials will furnish this information.

Henry Egbert, secretary of the Journeymen Plumbers' local, followed William Trischeller on the stand Thursday afternoon. He produced the minutes of the local, which were given to the court for his information. He also stated that the local was affiliated with the Central Labor Council, as well

as the Building Trades Council.

Egbert testified that journeymen plumbers are compelled to undergo an examination as to their competency before they are qualified to receive the specific wage scale. Only the minimum wage is fixed by working agreements, he said. He also stated that a committee from the Building Trades Council endeavored to reach an amicable settlement with the Master Plumbers, without success.

Egbert was twice recalled to the stand, the last time by Judge Tarbell, who asked the witness to relate the causes leading up to his discharge last year by Joseph Loviner, of the Loviner Heating and Plumbing Company. Egbert stated that he was shop steward, and as such was supposed to see that all of the provisions of the working agreement were observed in his shop.

He said that one day he had occasion to go on one of the jobs and found an apprentice working alone on plumbing work, a clear violation of one of the provisions, he said. He informed Mr. Loviner that the union would not stand for that. The following Saturday he was discharged, the witness testifying that Loviner told him that he hadn't treated him right in the matter of help. The other plumbers and helpers quit their jobs when he was fired, he said.

The plaintiffs here rested their case.

Thomas McCarty, a journeyman plumber, was the first witness for the defendants. He testified that the steady employment agreement had been violated by some of the smaller shops, and that the larger plumbing firms repeatedly insisted that the union enforce it rigidly. He said it was reported into the local at one meeting that the members of the Master Plumbers' Association, which included the larger firms, had agreed to raise the wages of the journeymen, if the union would enforce that agreement.

McCarty testified that the rules of the local were passed for the benefit of the members, and not to inflict injury on the employers, or anyone else.

Like testimony was offered by Fred Burkhardt, a journeyman plumber, who also testified that a committee from the Master Plumbers' Association, composed of W. W. Watrous, William Trischeller and Fred Schmidt, submitted a proposition to a committee from the local, composed of Burkhardt, Bonner and McCarty, that they would agree to the raise in wages if the journeymen plumbers would work only for the members of the Master Plumbers' Association.

Attorney Miller, for the defendants, attempted to show that the object of the master plumbers was to freeze out the little fellows in the business, and that they insisted upon some of the rules to which they are now objecting.

In rebuttal, Judge Blair called Watrous, Trischeller and Schmidt to the stand in order, all of whom testified that no such proposition ever came from the Master Plumbers' Association to their knowledge. Watrous and Trischeller stated that such a proposition was hinted at by the journeymen's committee, but that they refused it. Schmidt could not remember of anyone on either side mentioning such a proposition.

Stolen Coat Recovered

Officer Roy Moore on Friday morning recovered a coat belonging to Senator Thomas Bagby, of Garrettsville, Ky., which was stolen while he was playing pool at Capt. Fred Winter's place last Saturday. It had been sold to W. A. Holmes, a second-hand dealer. Moore also found some valuable letters belonging to Bagby. They had been strewn along the street. A C. & O. pass that was also in the coat, was not recovered.

Important to Health During Hot Weather

Summer Conditions Contribute In Various Ways to Constipation

At no time should people be more careful of the condition of their bowels than during the hot weather. Constipation should be guarded against especially, as many serious, and often fatal, diseases are traceable to neglect.

Some people find that certain fruits have a laxative effect, but this cannot always be depended upon; a mild laxative-remedy that will act gently, yet positively, without griping or shock to the system, is far preferable. A combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin is highly recommended as being easy and natural in its action, pleasant to the taste and certain in its effect. A dose of this excellent remedy at bedtime will restore normal activity in the morning, carrying

off the heaviness and bloat. Salts, purgatives and cathartics should be avoided as they upset the entire system, and at best afford but temporary relief.

Dr. Caldwell's Syrup Pepsin is not expensive and can be obtained in any drug store for fifty cents a bottle. For a free trial dose of this excellent remedy at bedtime will restore normal activity in the morning, carrying

MANY AUTOMOBILES WERE OUT

The streets were fairly alive with automobiles Thursday night, the hot weather having the effect of encouraging practically every machine owner in the city to take a spin. The autos were particularly thick in the vicinity of the street fair grounds and Front street was transformed into a veritable show place with a constant stream of cars.

BRIDGE WORK PROGRESSING

The work of riveting the super-structure of the new county bridge across the Scioto river was started Thursday and the rattling sound is like so much welcome music to the thousands eager to see the big structure completed as early as possible. The second span is ready to be swung.

INQUIRE ABOUT OUR DEAD CUREFW

The city officials are in receipt of an inquiry from the municipal court of Concord, N. H., asking about Portsmouth's curfew ordinance and its practicability. The mayor in reply says there can be no doubt about the curfew having a good effect and in his opinion it should be continued.

YORK PLACE WILL LOOK LIKE AN ARMY CAMP

It was definitely announced at the regular meeting of Portsmouth Council, Jr. O. U. A. M., Thursday evening, that the time of the state encampment of the uniformed rank of the order would be held in this city from August 14 to August 22 in York park. Three regiments will participate in the encampment.

The regiments are equipped as completely as the regular army, having machine guns, wireless equipment, and all other accessories, in addition to each member being fully provided with the latest equipment.

Dress parades and fancy drills will feature each day of the encampment and the public is cordially invited to witness the maneuvers.

On August 21 the big sham battle in which all companies will take part, will be held at the ball park at Millbrook. This is the big feature of the encampment each year, and is staged with a realism that is thrilling. An admission will be charged to the battle.

The Two Covenants Will Be Discussed

"The Two Covenants" will be the subject at the gospel tent to night at 8 p. m.

Last night as the Law of God was defended, the speaker produced many texts in its defense. First it was shown that "sin is a transgression of the law" and "where there is no law there is no transgression." The conclusion being drawn that as Adam sinned, and even Lucifer fell, it would confirm the proposition that the law existed before either sinned. The "Ten Commandment Law" was said to be the same law that has existed from the beginning, and that it was written on tablets of stone at Sinai as a perpetual reminder to God's people. The speaker declared that the Law of God would be the standard used in the judgment, according to the testimony of James 2:8-12. But to state that it was "done away in Christ" would be a perversion of all the plain statements found in the Scriptures. "For did not Christ himself say

in Matthew 5:17, that he came not to destroy, but to fulfill that very law, and that his whole life was governed by its sacred precepts?"

James calls the "Ten Commandment Law" a looking glass, and Paul agrees, for he said that it showed him his sin. "As the mirror shows our condition, so the law shows our character. What shall we do then, break the mirror, or remove the stain of sin that it has faithfully pointed out?"

In concluding his remarks Mr. Eusey referred to the fact that the law was spoken from Sinai's summit by the lips of Jehovah, and written twice with his own finger on tablets of stone. God himself has left this permanent record: "My covenant will I not break, nor alter the thing that is gone out of my lips. All his commandments are sure; they stand fast forever."

"No better standard has ever been given either in the civil or

Fairest Ohio Girls Dine With Governor

Columbus, Ohio, July 16.—Columbus Thursday was invaded by a bevy of Ohio's fairest daughters. They captured the city by storm and carried off in their laughing midst Governor Willis and Mayor Karb, of Columbus.

The occasion was the assembling of the fifty most beautiful women of Ohio, as picked by the motion picture public of the state, for the American Art Film Co., of Columbus, for the purpose of perpetuating their charms on motion picture film.

From these fifty beauties will be picked the six who will be the guests of the film company for a month's tour of the west, including Yellowstone Park and the two expositions, of the Ohio Beauty Special which will leave August 12th.

The morning was spent in photographing the women in uniform. At 12:45 the assemblage sat down to an elaborate luncheon at the Southern Hotel, presided over by W. L. Mackey, general manager of the Exposition Tourists Company, at which were present as honored guests, Governor Willis and wife, Mayor Karb and wife, of Columbus, and Robert O'Brien, representing the Columbus chamber of commerce.

Short addresses were made by Governor Willis, Mayor Karb, Mr. O'Brien and Mary Ellsworth Fuller, of Newark. Following an informal reception.

Toledo, July 1.—In order that the court of appeals may review the judgment of a lower tribunal which found Peter Skirbner, New York, guilty of slaying Kiser Bartock, a policeman, who went to arrest him after Skirbner had shot his sweetheart, Jauline Miskum, also of New York, whom he followed to this city, has been granted a reprieve.

TWO PERISH IN FLOOD

(Continued From Page 1.)

precipitated .67 inches. Over the upper watershed of the Scioto the rain yesterday and last night was considerably heavier than here. The heaviest rain fall in the state in the 24 hours previous to 7 a. m. today was 4.2 inches reported in Lima and Marion. Prospect reported 3 inches, Delaware 2.25, Carding 2.16, Granville 1.66, Coshocton 1.65, Somerset 1.55, and Greenville, Darke Co., 1.44 inches. At Kenton the Scioto river is at flood stage and the hay crop is reported ruined. There, 1.54 inches of rain fell in three hours.

At Mt. Vernon Harry Mohler, 35, was drowned while attempting to ford a swollen stream. Thousands of dollars worth of damage to crops is reported.

The footbridge at Mound street used by pedestrians only and connecting with the West Side over the Scioto river was washed out shortly after ten o'clock today. No one was injured.

The Scioto river stood at 17 feet at the Mound street gauge this afternoon—within two feet of the danger mark—but the rise was only barely perceptible and it was thought there was no further danger at this point except from a recurrence of the heavy rains. No damage has been reported from points on the Scioto south of Columbus and for the present, at least, there is no prospect of damage in that section.

Two Lose Lives, Loss Is Half Million In Lima, Ohio

Lima, Ohio, July 16.—Two lives were lost in today's flood here. Mrs. William Brokaw died from burns sustained when a gas explosion destroyed her inundated home and injured her four children. An unidentified negro was drowned while aiding the rescue work.

Ottawa river is racing through Lima, driving families to the higher portions of the city and tearing out bridges and viaducts. Since midnight it has risen on an average of six inches an hour and at 7 a. m. was within 15 inches of high water mark of 1913.

Every policeman and fireman in the city was kept on duty all night aiding in rescue work.

Towards Elida farmers report the water was higher than in the big flood. Wheat has been beaten down so as to be almost a total loss and the hay crop has been ruined.

Over 200 houses are under water and the river is full of debris indicating that above Lima considerable damage has been done.

One woman died from burns received when gas in her cellar was exploded and a lamp she was carrying threw burning oil over her.

Rising water had put out gas under a water heater and she lighted a lamp and went to investigate. Four little children in the house received minor injuries. The house caught fire but was put out.

The property loss in Lima, half a million dollars, is twice that of the 1913 flood. The water reached within few inches of the 1913 mark. Subsidence began at 11 a. m.

Kenton Is Without Fire Protection; Scioto Booms

Kenton, July 16.—The Scioto passed the 1913 flood stage here at noon. The Kenton waterworks is now submerged, and the city is without fire protection. The rain fall in the past few hours has been the heaviest in the history of the city. Refugees are coming into the city from the nearby villages of Alger, McGuffey and Forker and report the oat crop and many buildings wrecked and live stock killed. The farmers will suffer heavy losses, many losing everything.

The worst flood in the history of the city is feared as the result of the torrential rains of last night. One hundred families have been rescued by boats since 3 o'clock this morning.

The town of Paraker on the Scioto Marsh is under water, caused by a break in the river bank at that point. It is feared that lives may have been lost there.

A freight train on the Toledo and Ohio Central railroad struck a washout along the river at the south end of Kenton this morning and Engineer Mushane, braving the torrent, rescued his fireman, Jack Williams, who was pinned under the fire box, in danger of drowning or scalding to death. Williams is in a critical condition and may die.

Crop Damage In And Around Dayton Heavy

Dayton, July 16.—The rise of the rivers and streams in and around Dayton is not of much dimensions as to cause alarm.

Dark county had heavy rains last night as did also Miami county but Montgomery county singularly escaped the heavy storms. Lowlands are flooded and crop damage is heavy.

Heat Wave Follows Heavy Rain Fall In Cleveland

Cleveland, July 16.—A heat record was in sight here today when rising temperatures followed heavy rains which caved in streets, boomed boats from their moorings and put electric light plants out of commission.

The official thermometer at noon was 86 and was rising two degrees an hour. No relief was in sight.

Missouri River Rises, Kansas Again Threatened

Kansas City, July 16.—Kansas today faced a serious flood situation according to the local weather bureau. At noon the Missouri river here had reached 29 feet, the high water mark of last month when residence and business houses in the lowlands were forced to move to higher grounds. The river was fast rising and should there be continued rains, the river probably will go to thirty feet the weather observer said. Already miles of the lowlands have been flooded and truck farmers forced to leave their homes.

Railroad service both east and west is badly crippled.

GOES TO PRISON ALONE

New York, July 16.—Unaccompanied by guards, David Essason, convicted of swindling, leaves here today to serve a sentence of a year and a day in the federal penitentiary at Atlanta, Georgia. The experiment of allowing Essason to go to prison alone and unguarded is a new idea of the federal authorities.

San Francisco, July 16.—Thirteen thousand dollars of approximately \$20,000 stolen from the U. S. post office in December, 1913, is in the possession today of Federal postal inspectors, and Clarence McDaniels, a former clerk in the office, is under arrest here, having confessed the theft. It was through McDaniels' confession that the money was recovered. He directed the inspector to dig beneath a chicken coop in his yard at Palo Alto, California. They found about \$12,000 buried in a tin can. In addition McDaniels turned over \$500 and his wife \$500 more. McDaniels was a clerk in the Palo Alto post office at the time of his arrest, having been transferred shortly after the robbery at Wallace.

The confession of McDaniels and the recovery of most of the money the inspectors declared today, was one of the most puzzling post office robberies in years. The Wallace postmaster and his assistant were both removed because of the disappearance of the money. McDaniels will be taken to Wallace to await action by the federal grand jury.

U. S. WAR BOATS GO THROUGH BIG CANAL

Panama, July 16.—The Panama canal was used today for the first time by large battleships of the United States navy when the Missouri, Ohio and Wisconsin, carrying naval cadets from Annapolis to San Francisco made the trip from the Atlantic to the Pacific. The battleships which compose the naval academy practice squadron are in command of Rear Admiral Follum, superintendent of the naval academy at Annapolis.

The squadron left Christobal at ten o'clock this morning and was scheduled to reach Galliard cut and pass the slide there about two o'clock this afternoon. The battleships are due to reach Balboa, the Pacific terminal of the canal at six p. m. The Panama canal has been used by warships before. The Peruvian gunboat Teniente Rodriguez passed through the waterway on August 17 last year and a flotilla of American submarines on February 25 of this year navigated the canal during practice.

WILSON FREES MAN

Washington, July 16.—President Wilson today commuted to expire at once the jail term of Robert E. Huels, the New York man who after 12 years successful elusion of imprisonment for a violation of the postal code, gave up a prosperous business and surrendered himself. The Bowery Mission of New York at which Huels was a worker and other organizations appealed for his release. He will be freed as soon as the department of justice can arrange certain formalities.

HERE'S NEW GAME

(Continued From Page One)
days and nights. They've had us all fooled, for we have been running around like a chicken with its head cut off during the past forty-eight hours wondering just whether we should leave the house or office with an umbrella, rain coat, lightning rod or row boat.
About three o'clock Thursday morning nine out of ten of the people in Portsmouth who were sleeping at that time (and most of them were!) were almost thrown out of their downy beds by a terrific peal of thunder. Glancing out the window they saw streaks of lightning chasing each other across the sky. This remarkable spectacle, many citizens sleepers say lasted for about ten or fifteen minutes.
It thundered and lightened, and lightened and thundered, these

people who had been roused from their sleep chased around the house, slamming down windows. It thundered and lightened some more, and yet it didn't rain. Just as suddenly as the outbreak had come it went away, windows were thrown back up, sleepers went back to bed, feeling sure that the rain would come soon. They waked up on Thursday morning and sweltered through one of the hottest days of the summer. Flashes and thunder continued to play hide-and-seek over and around Portsmouth all day long, but nary a drop of rain came until about four o'clock in the afternoon, and that didn't last long.

It was learned by telegraph yesterday afternoon that this same game of Storm, Storm, Who's Got the Storm was played over around Huntington and up around Columbus the same time that it was played here, but they happened to get their hands on the Storm several hours before Portsmouth did.

Edward Bromberger of the group of lawyers appearing for the state gave notice of appeal. At a previous conference of counsel in the case it had been made clear that should the court decide in Thaw's favor the commitment of Justice Dowling under which Thaw was sent to Matteawan in 1908 after he had been acquitted on the grounds of insanity of the murder of Stanford White would not be formally vacated but would simply cease to operate.

John B. Stanchfield, of Thaw's counsel, then moved that Thaw be given his liberty under a bond. This motion was vigorously opposed by the state. Mr. Bromberger told the court that he considered Thaw insane and a danger to the community. Mr. Stanchfield replied that Thaw had been adjudged sane and that to deny him bail would virtually nullify the court's decision until the appeal had been decided. The court then fixed the amount of bail at \$35,000.

ed the state in preparing the case and then appeared as expert witnesses in court.

"I have reached a decision in this case," Justice Hendrick said, "and it is based on my own judgment, fortified by the action of the jury."

Thaw sitting comfortably in his chair his counsel on each side, his mother and his sister a few feet

behind, showed his pleasure and anticipated the court's decision with a broad smile.

"I want to say a word about the alienists," Justice Hendricks continued. "We have been told by our alienist that it is impossible to determine the sanity or insanity of a person without taking the word of alienists. This court and jury cannot depend upon the word of an alienist who for years has devoted himself to a case of this kind and assisted in its preparation." He said he hoped the legislature of the state will find some means to stop this. He continued: "Gentlemen, I have adopted the verdict of the jury. I declare now that it is the decision of the court that Harry K. Thaw is sane."

Edward Bromberger of the group of lawyers appearing for the state gave notice of appeal.

At a previous conference of counsel in the case it had been made clear that should the court decide in Thaw's favor the commitment of Justice Dowling under which Thaw was sent to Matteawan in 1908 after he had been acquitted on the grounds of insanity of the murder of Stanford White would not be formally vacated but would simply cease to operate.

John B. Stanchfield, of Thaw's counsel, then moved that Thaw be given his liberty under a bond.

This motion was vigorously opposed by the state. Mr. Bromberger told the court that he considered Thaw insane and a danger to the community. Mr. Stanchfield replied that Thaw had been adjudged sane and that to deny him bail would virtually nullify the court's decision until the appeal had been decided. The court then fixed the amount of bail at \$35,000.

Thaw sitting comfortably in his chair his counsel on each side, his mother and his sister a few feet

behind, showed his pleasure and anticipated the court's decision with a broad smile.

"I want to say a word about the alienists," Justice Hendricks continued. "We have been told by our alienist that it is impossible to determine the sanity or insanity of a person without taking the word of alienists. This court and jury cannot depend upon the word of an alienist who for years has devoted himself to a case of this kind and assisted in its preparation." He said he hoped the legislature of the state will find some means to stop this. He continued: "Gentlemen, I have adopted the verdict of the jury. Plan Fraternal Parade

It was learned Friday that directors of the Retail Merchants Association are figuring seriously on having a Fraternal Parade held in connection with the Korn Kar-nival this year despite the fact that it was passed up at the recent meeting.

It is planned to canvas the sentiment of the various lodges about the parade idea before definite announcement is made. It is likely that no floats will appear in this year's pageant if one is arranged for.

It appears that an elderly foreigner, named Ferandi Francesco, entered Charles Zeigler's cafe Thursday afternoon and presented a \$36.77 check. Mr. Zeigler made the mistake of not having him endorse it in his presence. With the aid of Officer Bonzo he overtook the man, and his partner, Gerari, was later rounded up. He claimed to have found the check; the name of which was said to have been forged. A comparison of the signatures indicated that both were Gerari's handwriting. He was given quite a scolding by the mayor, who after restoring the money to Mr. Zeigler, remitted the fine. Both foreigners have been working for Andrew McCorkle.

Razor Carrier Sent Back To Workhouse

Frank Tinsley, a young negro, who was just released from the Cincinnati workhouse a short time ago, was again sentenced in police court Friday to 60 days in that institution besides receiving a fine of \$25 and costs. Tinsley had disregarded warnings to quit jumping on and off the merry-go-round at the street fair and is said to have flourished a razor, carrying a razor. When searched a razor was found in his pants pocket while its holder package was in his coat pocket. Frank McGee and Leslie Cooper appeared against him.

Will Save Arm

Mrs. Elida M. Wyans, visiting nurse, has returned from Cincinnati where she accompanied Mrs. Sarah Nodler of Jefferson street. Mrs. Nodler consulted a specialist about her arm, and she will not have to have it amputated as first thought.

Wire Is Stolen

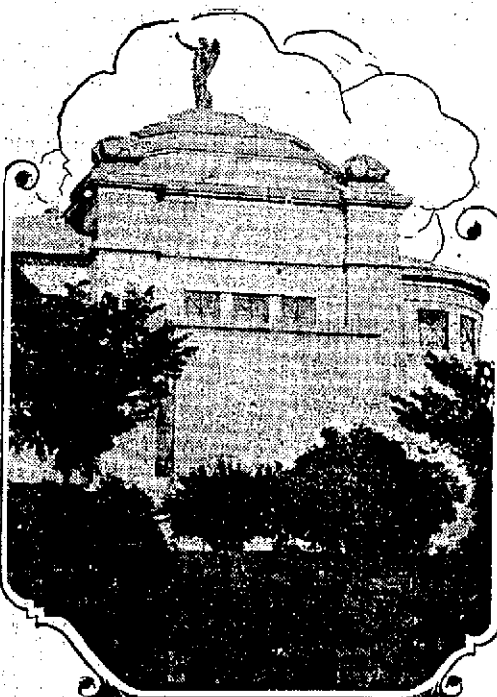

The police officials were called up by Mayor Sam Davis, of New Boston, Friday morning, asking them to keep a lookout for 500 pounds of copper wire that was stolen from the Whitaker-Glessner plant Thursday night.

Row Over Check

Frank Gerari was fined \$10 and costs in police court Friday morning for his alleged connection with a check transaction the officials succeeded in straightening out.

Tom Burt expects to launch his brand new motor boat "Gray Kid" in the Ohio river, Saturday. He has equipped the boat with an automobile top.

OBSERVE ANNIVERSARY

The twentieth anniversary of Portsmouth Chapter No. 11, American Insurance Union, was observed in a fitting manner Thursday evening and the attendance was gratifyingly large. Owing to the extreme heat a formal program was dispensed with. Short addresses were delivered by Rev. L. J. Hopper, A. Schapiro, Fred Baker, George Carroll and Michael Ehrman. Fruit punch and ice cream were served before the festivities ended.

Two Games Sunday

President Gableman of the local team announced Friday that a double header will be played with Charleston Sunday and as usual one price of admission will be charged for the double bill. This pair of games with Biddy Beers' team should draw the biggest crowd of the season.

Both Drank Beer, Husband Is Fined

Because Norman Bohorn, a steel-worker, does not believe in the biblical injunction that "Cleanliness is next to Godliness," was blamed by the mayor as one of the disturbing factors in his domestic affairs. Bohorn had driven his wife from home several times Thursday night before the police succeeded in locating him, said the wife in court Friday. She had arranged the folding bed for him and then stretched out near the door-way herself, because it was so hot, to await his arrival. When he did come he was "raving and crying," she said, and drove her out. She said he was a good provider, but drank more than ever since their marriage about a year ago. She denied that she made a practice of drinking beer, saying she imbibed only, like Thompson's colt--when in a good humor.

FIRE CHIEF HAD GOOD TIME IN CINCINNATI

Fire Chief W. A. McQuat, who returned Thursday night from a visit to his sister, Mrs. Clay Rockwell at Norwood, was shown every courtesy possible by the safety and fire department officials of Cincinnati.

The chief was shown about by Chief Barker, who took him to the Fox-Ahrends factory in time to witness some tests of eight fine new auto apparatus for New York City. He also took him to Chester Park, showing him the place where fire apparatus will be exhibited during the coming fire chief's convention, and also made a trip to the tower from which the fire alarm system of the city is regulated. Tests are made every twenty minutes. Cincinnati now has 32 motor fire apparatus. Quite a delegation of the Queen City firemen will attend the coming state firemen's convention in Portsmouth. Chief McQuat also took a run over to Dayton and was assured of a big delegation from that city.

Mr. Varner Resigns

J. H. Varner, who was named as chairman of the committee to have charge of the arrangements of the Married Folks Parade to be held during the Korn Kar-nival Thursday evening tendered his resignation.

Mr. Varner says he would be unable to give the position the attention it will require and rather than slight it deemed it best to resign. His business partner, Will H. Burt, is chairman of the Bill parade, which is to be one of the Karnival's big features this year.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years--the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines. It is to be regretted that there are people who are now engaged in the notorious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness. Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

LEXINGTON BEATEN FOUR IN ROW BY LOCALS

Final Game Was Won On Thursday, Team Home Today

LEXINGTON, Kentucky, July 16. PORTSMOUTH swept the base ball platter clean Thursday when the Spencers beat the Colts for the fourth time in as many days, the final count of the get-away contest being 4 to 3.

Portsmouth, performed brilliantly in the series just closed and had the extreme pleasure of beating all the pitchers sent in against them. The team was handled magnificently by Manager Spencer as he made changes just at the right time and they stayed off defeat in one or two of the games. Caton's hitting was again the feature. In the series just closed he made 13 hits out of 16 times at the bat.

MAKES NEW RECORD IN THE POLE VAULT

This photo was taken just as Edward Knourek of the Illinois Athletic Club set a mark of 12 feet 6 1/2 inches in the pole vault at the recent Central U. S. senior championship meet in Chicago.

TEAM WINS 7, LOSES 5

Well, Portsmouth didn't do so bad on the trip that ended so gloriously in Lexington yesterday. They played 12 games and 7 of these were victories. The team after losing five out of the first six turned right around and won six straight. And mind you, this brilliant work was done on hostile fields.

Will Play So. Webster

The favorite baseball team will go to South Webster Saturday to play the team. They will play the outlaws at 81 Straus park Sunday afternoon. The Spartans will also play the Vectors at 81 Straus park Sunday afternoon.

Game Ends In Tie

Charleston, July 15.—Frankfort and the Senators played a tie game here Thursday, it being called to allow teams catch a train. The score: Frankfort, 4; Ironton, 4.

FANS SHOULD TURN OUT

As this is Ladies' Day no doubt a big flock of Gometties will go to Millbrook to witness the first game with Charleston. One of the largest crowds of the season should be on hand to give the guest athletes a royal reception. The white house workers made last baseball history down in Lexington.

MERMAID SETS NEW MARK FOR 50 YARDS

Frances Cowells, an eighteen-year-old San Francisco, girl swimmer, broke the American record for fifty yards for women in the annual championship meet of the Pacific Athletic Association, held a few days ago in the coast metropolis. Miss Cowells finished a few inches ahead of Dorothy Becker, the fourteen-year-old wonder, in 33.2-6 seconds, which took two-fifths of a second off the former record held by Miss Legros of Honolulu. Miss Cowells' victory was due mainly to a fast start.

CATON MAKES HISTORY WITH BAT

Howdy Caton's hitting in Lexington was little short of marvelous, the brilliant shortstop batting at a .813 clip. He made 16 trips to the plate and cracked out 13 hits. On Monday he was up 4 times and made 3 hits, on Tuesday he had a perfect average of 5 and 5, on Wednesday he quit with a record of 4 and 3 and on Thursday he made two hits out of three walks to the plate. Howdy surely showed the town boys of Lexington something in a clubbing way during the Portsmouth-Lexington series.

COLTS WERE OUTPLAYED

Four in a row from Lexington. That is certainly stepping along some and the fans were pleased mightily over the good news that victory No. 4 was chalked up yesterday. It must have been a sad blow to the pennant hopes of the Colts to be whipped four times in the same place by the Spencers. Portsmouth scored 22 runs in the series to Lexington's 12 and the Colts were outplayed.

TORNADO HITS GRANDSTAND

Decatur, Ill., July 15.—A tornado struck the grand stand of the Decatur baseball park yesterday just as the Decatur and Rockford players were lining up to play their scheduled game. The roof of the grand stand was torn off, and a portion of it fell upon the crowd below. A number of persons were badly bruised. Players on the Decatur and Rockford clubs went to the rescue of the persons buried under the wreckage. Three hundred persons were in the grand stand when it was wrecked. One man's shoulder was broken, and a boy sprained both ankles in leaping out of the wreckage.

NEMESIS TO COLTS

Lexington Herald.—Jacobus is the particular nemesis of the Lexington team, his appearance in the Lexington lineup Monday for Ironton and Thursday for Portsmouth, opening the way for the batting rallies which made a winning game for the Colts and transformed it into the small end of a game score. Jacobus is a powerful hitter and his unassuming, awkward attitude at bat is disconcerting. He also is a winning pitcher and a valuable asset to have around.

NO HIT GAME

Providence, R. I., July 15.—Joe Oeschget, the former Philadelphia National pitcher, who was obtained from Manager Moran on an optional agreement, pitched a no-hit game for Providence against Toronto in the International League series Thursday. Rain fell intermittently throughout the evening, making the performance all the more remarkable.

SOME CLASS TO "HOWDY"

Lexington Herald.—Caton was the brilliant particular star with the best average. He hit five times, two doubles included, out of five trips to the plate, driving in three runs. The dramatic shortstop of the Colts is a stock little fellow, some last now at a great end and is a dangerous man to face any pitcher.

To Invade Coal Fields

Huntington Advertiser.—Lexington, Huntington, West Virginia, baseball players will invade the coal fields of the West. A Western baseball league, with Lexington, Huntington, and other teams, will play games in the coal fields. The league will be organized by the Huntington Advertiser. The first game will be played between Lexington and Huntington on Sunday afternoon. The game will be played at the Huntington baseball field. The Huntington Advertiser will be the official scorer for the game.

Huntington May Still Land Franchise In The Ohio State

There is still a possibility of Huntington taking over the franchises of the Chillicothe Babes and the Ohio State league, dividing its season. The Herald Dispatch of Huntington Friday morning said: Believing Huntington is not yet a dead one so far as baseball is concerned, the directors of the Ohio State league headed by President Joe Carr will invade this metropolis on Sunday when it will be decided whether the league will adopt a split season and take Huntington into the fold. Should the presidents of the different clubs vote to divide the season into two races it will resolve itself into a back-down in favor of the local company showing that the league will meet the proposition more than half way in order to solve the dilemma that is facing it.

COLTS WERE OUTPLAYED

Four in a row from Lexington. That is certainly stepping along some and the fans were pleased mightily over the good news that victory No. 4 was chalked up yesterday. It must have been a sad blow to the pennant hopes of the Colts to be whipped four times in the same place by the Spencers. Portsmouth scored 22 runs in the series to Lexington's 12 and the Colts were outplayed.

Ohio Woman Recovers After Stomach Torture

Mrs. Nora Britton is well known in Caldwell, O., where she has lived for some time. Her many friends who know the suffering she has endured from stomach trouble are marveling at the sudden and astonishing improvement in her condition.

Mrs. Britton credits her good fortune to a trial of Mayr's Wonderful Remedy, and describes her experience as follows:

"For four years I suffered, no one knows what. I had six doctors but received no benefit. One said it was catarrh of the stomach, another recommended an operation. I had given up all hope when I saw an advertisement of Mayr's Wonderful Remedy and decided to try it. Thank God, relief came at last. I can't say enough for it. I am pleased and thankful. I am recommending it to every person I meet, suffering with this ailment."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

"Color Line" Upheld By An Ohio Judge

Hillsboro, Ohio, July 16.—About two months ago F. D. Patterson, Arlis Bailey and Archie Sharp, all of whom are colored, brought suit in the Highland county common pleas court against Roy Brown, proprietor of a moving picture show at Greenfield, the plaintiffs claiming that Brown had set aside a particular section of his theatre and would not allow them, solely because they were colored, to sit anywhere else in the house. They also claimed the action was contrary to the

constitution of the United States and the constitution and laws of Ohio and had asked that the defendant be enjoined from further actions of that kind.

After admitting he had taken the action charged by the plaintiffs he set up two causes in defense of his procedure. The first was that he was granting substantially the same privileges to colored people as to the white, and that in setting off a section of his theatre exclusively for their use he was only exercising control in its management. He claimed he was not infringing on the rights of any one as long as he gave them substantially the same accommodations. As a second defense Mr. Brown claimed that an injunction suit was not a part of this case as the plaintiffs had recourse at law, both in criminal and civil actions. Judge Newby who heard the case three weeks ago rendered his decision on Tuesday of last week and sustained Mr. Brown in both of his contentions.

The new appointees are Rev. Z. B. Campbell, Ada, Republican, retired Presbyterian minister and college financial officer; Charles German, Fostoria, Republican, business man; and Samuel D. Webb, Albany, Democrat, former superintendent of the Delaware Girls' Industrial Home under Governor Harmon.

HOW TO HEAL SKIN-DISEASES

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ringworm, rashes and similar itching, burning skin troubles. At any reliable druggist's get a jar of resinol ointment and a cake of resinol soap. These will not cost a bit more than seventy-five cents. With the resinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Try very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

A HINT FOR SHAVERS
If you want a refreshing shave, with a thick, creamy lather, try a resinol shaving stick. It contains the soothing, healing resinol medication which makes it especially welcome to men with tender faces.

WILLIS NAMES NEW CIVIL SERVICE BOARD

Columbus, Ohio, July 16.—Governor Willis today named an entirely new civil service commission to replace the three members whose resignations took effect yesterday.

The new appointees are Rev. Z. B. Campbell, Ada, Republican, retired Presbyterian minister and college financial officer; Charles German, Fostoria, Republican, business man; and Samuel D. Webb, Albany, Democrat, former superintendent of the Delaware Girls' Industrial Home under Governor Harmon.

Although Governor Willis made no announcement it is understood that Rev. Campbell and Mr. Webb will compose the new civil service board of two members created by the Barnes-Moore civil service bill. The salary is \$4,000. Mr. Webb, although a Democrat, was opposed to the election of Governor Cox and his appointment is said to have been approved by the so-called "true Democracy" organization. He also fought Governor Harmon when he was a candidate for the nomination at the Baltimore convention in 1912. Rev. Campbell has been financial officer of Ohio Northern University at Ada, Governor Willis' school and formerly held a similar position with Miami University. He also has been trustee of Wooster college. He is a graduate of Princeton university's theological school, but has not held an active ministerial charge for a number of years.

Mr. German is a business man and a friend of Governor Willis. He replaces Charles H. Bryson, Athens, Progressive, as member of the commission. Rev. Campbell succeeds S. A. Hoskins, Columbus, Democrat, and Mr. Webb succeeds Charles I. Brown, Democrat, Findlay. The resignation of Bryson and Hoskins took effect yesterday and though Mr. Brown's resignation was presented a month ago, it had been reported in political circles it would not be accepted and he would be named on the new civil service board as the Democratic member.

YOUNG BOY DRUNK

Arthur Davis, aged 16 years, of East Portsmouth, who said James Wilson, a night office man at the R. R. Y. M. C. A. building was his step-father, was turned over to the juvenile court by the police officials Friday morning.

The boy had been found in a buggy near the street fair grounds sleeping off a jug late Thursday night. He claimed some man had given him a drink from a bottle. Two men named Hill and Davis brought him to headquarters about 1:30 Friday morning. Captain Grant Cooper in his official report left word that the boy might know something of some of the goods that disappeared from one of the street fair tents.

"JITNEY MILLIONAIRE" IS ON A HUNGER STRIKE

MAN WHO WAS GOING TO BUILD A STEEL MILL CAN'T EAT PRISON FARE

Failure to receive in time, replies to telegrams sent on Wednesday night again caused a postponement Friday of the case of William Biggs, self-styled capitalist and steel mill promoter, held by the police, and accordingly his hearing will be held Saturday morning.

Attorney Mark A. Crawford who represented Biggs in some of his transactions, received a message from the Virginia National bank of Petersburg, Friday, stating that Biggs had no funds on deposit there. He also received a message from Marshall and Marshall, of Pittsburgh, counsel for the American Steel company, whom Biggs claimed to represent, acknowledging receipt of his wire, telling of Biggs' arrest, and stating that they would make reply later. Mr. Crawford was somewhat puzzled as to what conclusion to draw from their reply.

Won't Eat Prison Grub

Biggs, it developed Friday, has been on a hunger strike ever since his arrest Wednesday afternoon. He has flatly refused to eat or drink anything given to him by the city prison keepers. "I'm running opposition to Mrs. Pankhurst, the militant suffragette leader of England," he said laughingly, then growing earnest remarked that he couldn't "go" the "stuff" handed out to him for food, saying it would kill one quicker than the morphine he is in a habit of taking. He plainly showed the effects of his voluntary starvation and said that unless he got some good nourishment he would collapse, for the morphine without anything else on his stomach was getting the better of him. He wanted the services of a physician when a Times man saw him Friday noon.

Addicted To Drug Habit

Biggs said he had been addicted to the drug habit for the past four years. He said that once while under the influence of morphine he "shot up" the town of Bedford, between Cleveland and Akron and was arrested. He was fined \$25 and costs, he said. That was the only other time he was ever arrested, he said. He now takes ten grains of morphine regularly every day. He said he was married, the father of three children. His family lives in Pittsburgh. He was born in Philadelphia, he said, and was a graduate of the Eastman Business College, of Poughkeepsie, N. Y. His father was a contractor and he was associated with him in the same business until the father's death, when he took up engineering. He said he had been with the American Steel company for the past nine years and had selected sites and looked after preliminary work for branch plants at different places. "We were not going to put up a million dollar plant here but it was going to be a good sized one just the same. I don't know if it was the larger than your steel plant for I have never seen it, though probably have passed it several times," continued Biggs.

Biggs Still Confident

Biggs was told of the unfavorable replies Mr. Crawford had received to the telegrams he sent out in his behalf. "They must have the wrong bank," said he, with reference to the Petersburg institution. "I know the

money is there for I put it there myself." Asked to explain the failure of the Pittsburgh attorneys to come to his rescue, he said: "Well, they're mighty busy people but I know they will take care of me in time."

Deposited The Money

Biggs was asked if he had any money who he named to which he replied that he did not remember just what he had. Asked what disposition he made of the \$25 advance to him under a contract by J. D. Copley, of Little Scioto, whom Biggs offered a foremanship at his proposed new steel mill at Wheelersburg, he said he deposited it in a bank.

He said it was not the First National bank, or the one directly across from the First National, but one further out street.

The two charges against Biggs are that of obtaining money under false pretenses from Copley, and a somewhat similar charge preferred by Albion Z. Blair, Jr., who alleges that Biggs falsely misrepresented himself and still owed him \$11 for "Jitney" bus hire.

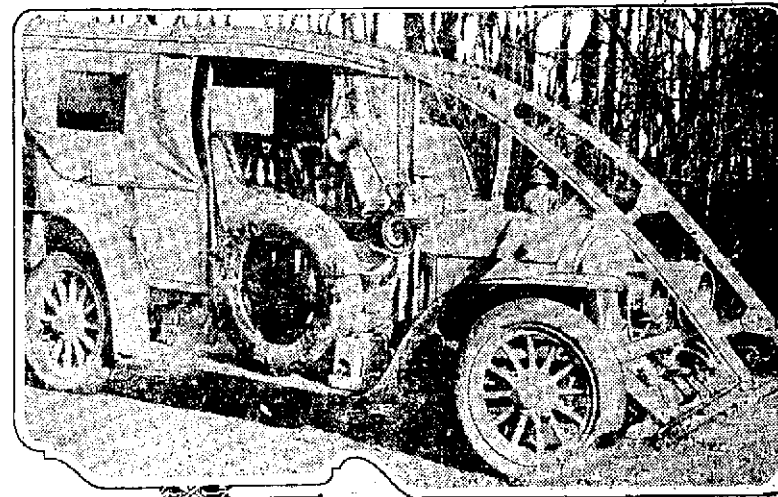

Scaggs Is Ill

Tilden Scaggs, the local painter sentenced to the workhouse by Judge Beatty for non-support, suffered a mental and physical breakdown in the county jail Friday, and is in a serious condition. He will be removed to the hospital Friday evening.

Mrs. Frank Banham, of Wheelersburg, was brought to Hempstead Hospital by Daehler's ambulance Thursday.

To Recover Drowned Bodies. A Canadian scientist suggests that drowned bodies might often be recovered by a method used by Australian poachers in catching fish. The poacher casts into the water a bottle filled with dumplings and the fish, stupefied by the explosion, are easily gathered up as they float upon the surface.

BARBED WIRE ENTANGLEMENTS HAVE NO TERRORS FOR THIS CAR

HOTTER TODAY; MERCURY STOOD AT 95 IN THE SHADE

Should Never Argue With Them. If a woman wants to paint her face it's none of the state's business, declares a Cincinnati woman. And the state will probably drop the subject right there.—Knoxville Sentinel.

The heat wave remains unbroken. Portsmouth experienced another extremely warm day Friday, the maximum temperature being 95, against 94 on Thursday and 93 on Wednesday. The minimum was 75, one degree higher than on Thursday.

There was not so much humidity in the atmosphere today, and to many people the day did not seem as warm as Thursday.

George Johnson, erecting engineer for the John H. McGowan company of Cincinnati, was overcome by the heat while at work at the new water works plant east of New Boston about four o'clock Thursday afternoon, and for a while was in a serious condition. He was able to return to his boarding house on Sixth street, unaided, but collapsed soon after his arrival there.

Henry Miller, the New York foreigner, who was prostrated by heat several nights ago, had sufficiently recovered to be dismissed from Hempstead hospital Friday morning.

Mrs. Warren Smith of Tenth street, was overcome by heat Friday morning, but her condition is not serious. She was revived by a physician.

Alfred Burke, an N. & W. trainman living on Seventeenth street was overcome by heat shortly after coming in off his run Friday afternoon, requiring medical attention before he revived.

Local People Have Relatives In The Flooded Districts

Word of a flood menacing Columbus and Kenton, Ohio, and surrounding districts from a sudden rise in the Scioto river brought worry and apprehension to a number of Portsmouth families Friday. Relatives and friends of local people live in the threatened districts, and because word coming in Friday from the danger zones was indeed welcome.

Mrs. Frank Baker, 725 Front street, wife of the local shoe dealer, has a sister, Miss Anna Ferguson, her mother, Mrs. A. W. Ferguson, a brother-in-law and sister, Dr. and Mrs. Will Spedding, living in Kenton, Ohio, where the flood is reported as dangerous. She heard from her sister saying they were all right, but might have to move.

R. H. Charlton, of the Lohman store, received a telegram Friday

morning from relatives at Kenton, stating that the water was rising rapidly and that a stage in excess of the 1914 flood was predicted. Kenton is within sixteen miles of Scioto river, where the Scioto river has its source. The March was early in the flood, Mr. Charlton stated, and his relatives were in no immediate danger.

Mrs. J. E. Carr, 322 Second street, has a sister in Kenton, but she has received no word from her.

H. D. Smith, employed at the Cretion Clothing Company, and residing on Third street, has failed to receive any word from his parents, Mr. and Mrs. T. D. Smith, but is not alarmed as the 1913 water did not reach their home.

OBITUARY

Dr. Hiram H. Howe
Relative to the death of Dr. Hiram Howe, father of Harry Howe, of the Portsmouth Auto and Machine company, of this city, the Gallipolis Journal of Thursday, said:

"Dr. Hiram H. Howe of Patriot, died at 4 p. m., Wednesday, after a long and distressing illness. He was born and reared at Patriot, and for many years as a teacher and later as a physician, was well known."

"He was a man of ability and integrity and of forceful character, before disease seized him."

"He is survived by his wife, a sister of Mrs. George Bratt, one son, Harry of Portsmouth, and two daughters."

Keep
Kool,
Friends
Keep
Kool!

There is really no good reason why the men and young men of Portsmouth should swelter these hot days. So far as the right kind of summer clothing is concerned, I have the right kind for these torrid days. You can't keep kool in a wool suit, heavy underwear, fur hats, etc. You know that, but probably you have not given the question much consideration.

Why not wear a Mohair, Palm Beach, Cravette, Silk or Kool-Tex Suit? I have them in great array, and at most reasonable prices.

Underwear

Cool, comfortable and sanitary. A full line of Wilson Bros. make.

Straw Hats

I can say with considerable pride that my line of straw hats was never equalled. The selection embraces Panama, Banoks, Leghorn and Senits.

SMOKE HOUSE WILL MOVE;
NEW STORE TO BE OPENED;
MALAVAZOS TO IMPROVE

By a deal closed this afternoon the Smoke House, which has been located on Gallia street since the Grand Opera House building was burned, will move back to Chillicothe street, and a new haberdashery will also be opened, by George Ahrend, a popular local young man. Malavazos Bros. will also make extensive improvements.

The first two stores have leased for ten years the Richardson room formerly occupied by the Weber Shoe company, and will divide it into two rooms. The Smoke House will get the north room and will have a frontage of 18 feet on Chillicothe street. Mr. Ahrend will have a 12 foot frontage. The rooms are 70 feet deep.

The Smoke House has also leased the entire second floor, and will at once install an up-to-date pool and billiard hall. This room will

have a glass front across the entire Chillicothe street end of the building.

Malavazos and company, who occupy the corner room adjoining will unite with the Smoke House and Mr. Ahrend, and put in a new front that will conform to those to be installed in the other stores. Mr. Malavazos will also install a refrigerating plant, put in a tile floor, new fixtures and remodel the store in general, securing floor space enough to accommodate 170 people.

The Smoke House will install new fixtures, put in a tile floor, and make other improvements on the lower floor. They expect to move in about September 1. Mr. Ahrend will install the latest fixtures, will have a tile floor and make his store up-to-date in every respect. He will handle all gentlemen's furnishings, and hats. He hopes to open about September 1.

fred and Arnold, by a former marriage, and that she followed him to Kentucky. She said the little girl dropped in her tracks, and she brought her home, while he continued on to Vanceburg with the boy. She said he met Fred Plummer and some others there, including them to come to Portsmouth and Plummer was killed on the way by falling under a C. & O. train.

Original Quarantine.
The term quarantine (literally fortification) originated during the outbreak of plague in Venice in 1403. The Venetians isolated those who had been exposed to infection for a period of 40 days. The designation stuck, though the period has become elastic since those days.

Husband Is Given
Decree Of Divorce

Edward N. Hempleman, a farmer living on Scioto Brush Creek, near Otway, was awarded a decree of divorce from his wife, Carrie E. Hempleman by Judge Thomas in common pleas court Friday on the grounds of adultery. Charles Howard was named by the husband as co-respondent. He told the court that his wife abandoned him and their two minor children in 1911. He took her back he says about two years ago on his promise to conduct herself properly, in consideration of which he deeded her a half interest in the farm.

After the deed was signed, Hempleman said his wife again left him. The court ordered him to sell tract number two, which was deeded to his wife, pay of the mortgage, and divide the proceeds between them. The wife was deprived of any interest in the home place.

The case was bitterly contested. Miller and Micklethwait representing the plaintiff and Black and Kimble the defendant.

NEW BOSTON

Mr. and Mrs. Otto Nahn have returned to their home on East Rhodes avenue after a two weeks' visit with relatives at Vanceburg, Ky.

Mrs. Allen Griffin, of Ohio avenue, is convalescing after a week's illness.

Mrs. James Hurley and family, of Rhodes avenue, spent Friday in the city with Mrs. John Robinson, of Robinson avenue.

The Daughters of America will hold their regular weekly meeting at the Davis hall, on Ohio avenue, this evening.

Mrs. William Staten, of Oak street, is visiting her sister, Mrs. Ekira Byron, of West Union.

The Portsmouth Steel Co's band met at their regular meeting place, on East Grace street, yesterday evening and reorganized under the name of the Whitaker-Glessner Steel Co. Band, and elected the following officers: Manager, William Middaugh; secretary, John Wellman; treasurer, Russell Middaugh.

John Miliken is in the village from Cleveland on business.

O. D. Chium returned to his place of business on Gallia avenue after a brief visit with friends and relatives in Kehoe, Ky.

Mr. and Mrs. Samuel Meyers, accompanied by Oscar Hunan, have returned from a motor trip to Cleveland, where they visited their brother, Robert Huffman.

Contractor E. A. Stedman, of Sciotoville, has a crew of men moving the old school house on Ohio avenue to East Stanton avenue, for J. S. Davis, who intends to convert it into a four apartment flat.

The New Boston Cubs will play Ashland, Ky., at 9 a. m. Sunday. In the afternoon they will play Wad's Station. The batteries are Lucas, Mathias and Payton. They will play at the Pebbles diamond on West avenue.

Harry Edwards, a talented orator, formerly of West Virginia, now with the Portsmouth Steel Co., will deliver an interesting address at the Christian church on Ohio avenue Sunday evening. His subject will be "Those Who Don't Know and Don't Know That They Don't Know." It is both an amusing and instructive lecture and all are cordially invited to be present. Special vocal and instrumental music has been arranged for the evening.

Mrs. Harley Black, of Harrisonville avenue, has been ill for the past few days.

The social at the Christian church was well attended and quite a sum was realized from the sales, which goes to help finish the new church.

Charles Ailes, of East Rhodes avenue, and Lloyd Hedrick, of West Grace street, have returned after a few days' visit with friends in Iron-ton.

SAGE TEA PUTS LIFE
AND COLOR IN HAIR

Don't stay gray! Sage Tea and Sulphur dyes hair so naturally that nobody can tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea have been sold annually, says a well-known druggist here, because it dyes the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all done up, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tea-to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

"TIZ" FOR ACHING,
SORE, TIRED FEET

"TIZ" for tender, puffed-up, burning, calloused feet and corns.

"Sure! I use 'TIZ' every time for any foot trouble."

You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "TIZ" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "TIZ" is grand. "TIZ" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, weary, smelly feet.

Get a 25 cent box of "TIZ" at any drug store or department store. Get instant relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

POOR CHILDREN WILL GET OUTING JULY 28

Captain E. Robinson, of the Salvation Army, through the generosity of the business men, has been able to complete arrangements for the outing for poor children which will take place July 28th. Capt. Robinson stated to the Times today: "We have been able to secure Millbrook Park, and the Street Railway company will take the children out and back free of charge. The manager of the park amusements will give all amusements free. It has been considerable work for us, but we appreciate the great generosity of the business men, the financial and being furnished by them. We are taking two hundred children on the outing."

BAKED PURITY

Laurel Brand, Sun Gold, Snow White and Chocolate Slice Cakes will make a very palatable addition to your meal. They can be had at the following groceries: Montgomery & Lockard, A. Hubman, Jansen, C. S. Strong, Schottle, F. Watkins, A. J. Chabot and Wm. Canter.

COMPLAINTS

Complaints by the police that the street lights are turned off too early, namely at 8:30 a. m., have been referred by the mayor to the street railway company.

The city officials have again appealed to N. A. Brokaw to keep open the ditch through the pond at Athletic park to prevent stagnation due to follow the rains and hot weather.

Complaints about some minor difficulties between Mrs. Louis Cole and a colored woman neighbor have been referred by the police officials to their landlord, Philip Bauer.

Property owners have offered to furnish the necessary material and pay for part of the labor for a gutter in the alley east of Hutchins and west of McConnell avenue, north of Robinson avenue. The service department will also investigate complaints about the condition of an alley between Robinson and Vinton and McConnell and Hutchins.

Complaints have been received by the city officials about the unusual growth of weeds on Thirteenth street, between Findlay and Kinney streets, and at 1103 Franklin avenue.

SOCIETY

Miss Antoinette Reitz, organist of St. Mary's church, and members of the Cecilian choir expect to go to Buena Vista Sunday morning to furnish the music for the first communion exercises to be held in the Catholic church there. High mass will be celebrated by Rev. Father Theodosius, O. S. B., of Ripley. O. A number of other Portsmouth persons also expect to attend the services.

The Misses Inez Schlechter and Bertha Gamberline, of the probate judge's office, and Miss Sciota V. Roush, of the treasurer's office, will leave early Saturday morning on a three days' trip to Mammoth Cave, Ky., where they will make a tour of inspection of the big caves.

Miss Lena Hauck gave an informal party this afternoon at her home on Onore street, complimentary to Miss Florence Baird, of Ripley, guest of Miss Helen Dunn, and Miss Juliet Bell Kierker, of Ripley, guest of Miss Marie Baner. Games and music were the diversions of the afternoon. In serving duty refreshments Miss Hauck was assisted by her mother, Mrs. Charles Hauck, Miss Edna Hauck, Miss Helen Dunn and Miss Marie Ware. Among the guests were Misses Florence Baird and Juliet Bell Kierker, of Ripley, Martha McGhee, of Wellston, Blanche Witten, of Bluefield, W. Va., Grace Machin, of Cleveland, Margaret Hayes, of Fronton, Dorothy Campbell, of Coalgrove, and Louise Bothwell, of Roanoke, Va.

Mrs. E. A. Powell took her class of young girls of All Saints Sunday school to Turkey Creek yesterday for an outing. Mrs. John Capehart also went along as chaperone. The trip was made in the Capehart wagon. In the party were Misses Katherine Hall, Harriet Thomas, Anna Marie Capehart, Winnie Krauser, Ida Peirce, of the class members, and little Misses Sara Heinrich, of Martin's Ferry, sister of Mrs. Powell, and Eleanor Halldeman were guests.

The Young Men's Fraternity Society of the United Brethren church will meet this evening, at which time the following program will be rendered:

Song by quartette—Thompson, Smith, Hopper and Knost.
Saxophone Solo—Hopper.
Address, "That Flag," by John Hopper.

Song—Ladies' quartette—Misses Edna and Lena Bowser, Minnie Frick and Ella Carson; Miss Ida Frick, pianist.
Saxophone solo—Hopper.
Address on "Florida" by John Mueller.
Solo—Ella Carson.

"An Interesting Event in My Life" by George J. Schmitt.
Song by Quartette.
Lec. evening will be served at the close of the program. All members of the church are invited to attend.

The Weston Sentinel has a marriage notice of interest in and about Portsmouth, as follows: "Win Dunn, aged 24, an employee at the Weston garage, and Miss Opal Bennett, aged 19, a talented pianist, slipped quietly away to Jackson in an automobile last Wednesday afternoon to secure a license to be married. Rev. W. F. Harbert, of the United Brethren church, accompanied them and will perform the ceremony."
"Miss Bennett is the charming daughter of Mr. and Mrs. T. C. Bennett and is very popular among the young people of our city. She is considered one of the best pianists in the city and is always in demand to play for dances."
"The groom-to-be is the well-

known son of Mr. and Mrs. Charles Dupre, of Sciotoville, and also has a wide circle of friends here."
"The young couple may decide to make their home in Sciotoville."

Mr. and Mrs. J. M. Stockham and three daughters, Vesta, Katherine and Violet, have returned from a delightful six weeks' visit through the West. They visited at the home of Mrs. Ethel McAleer Klingman, in Stockton, Cal., and were also guests at the home of Mrs. G. W. Anderson in Seattle, Wash.

Dr. and Mrs. William Schaefer, of Third street, have as guest Mrs. Ruth Doyle, of Escanaba, Mich.

Miss Mary Fisher, who makes her home at the Y. W. C. A., and has been employed at the Woolworth store, will leave soon for Columbus to accept a position in the office of her uncle, Supervisor of State Printing, J. E. Cross.

Mr. and Mrs. Jacob Leonard and their son-in-law and daughter, Mr. and Mrs. W. A. Forman, of San Francisco, are expected some time before Monday to be the distinguished guests of Mrs. Sarah J. Kenrick, of Washington street. The party, accompanied by a chauffeur, is making the trip across the continent from California in an Seelye Cadillac automobile owned by Mr. Forman. The Cadillac company has offered Mr. Forman a medal if the trip is completed, as he has planned it. The California

people are much interested, have written up the trip at length, are watching the progress of the adventure. Mr. Leonard was a former Portsmouth man, is a cousin of Mrs. Kenrick, and went West several years ago, locating in California. He is a man of great prominence and wealth, owning five large clothing stores in San Francisco, Los Angeles, San Diego, San Bernardino and Oakland, Cal. The trip from San Francisco to Chicago covers 3780 miles. Mrs. Kenrick and niece, Miss Pearl Rhodes, visited their relatives in California a year ago and the two families are now making this long trip to visit Mrs. Kenrick and her niece, who are looking forward to their visit with great pleasure.

Mr. Edward Winner, of Coshocton, was the guest of Rev. Father Goebel today.

The Scioto County W. C. T. U. will meet Monday afternoon in the Hutchins Street Baptist church. Mrs. J. P. Guthrie, state worker for the Y. P. T. B., will give a talk.

SAY SCIOTO WILL LEAVE ITS BANKS SUNDAY

UP VALLEY POINTS ARE NOT ALARMED BY RISE OF SCIOTO HEAD WATERS

Capt. Harry Donally, local river observer, late Friday afternoon received the following telegram from J. Warren Smith, of Columbus, chief weather observer of Ohio:

"Scioto river rise considerable and expected to overflow banks by Sunday. Not expected to danger lives or property except crops of lowlands."

Manager Allen of the Home Telephone Co. received notice from the Columbus office this afternoon to notify patrons that the Scioto river would be out of its banks by Sunday morning, and for all who have stock in the bottoms to move it at once.

Special efforts directed by The Times all along the Scioto river valley between Columbus and Portsmouth to ascertain the possibility of a menacing stage of the Scioto river resulted in the securing of encouraging reports.

Authoritative information from Circleville and Chillicothe and intermediate points stated that there was no perceptible rise in the river at any of these points. Only light rains fell Thursday night at Circleville and Chillicothe, not enough, so the well posted ones calm, to affect materially the stage of the river.

Those who were keeping close touch with the situation claim that as the water in the Scioto river at Columbus is only slowly approaching the danger mark by the time it is distributed through the valley below Columbus the swell will have spent its worst force.

An A. P. dispatch to the Times late today also stated there would be little damage south of Columbus, unless there were heavy rains tonight.

Bridge Men Are Easy

The Mount Vernon Bridge company's forces rushed work Friday morning pinning the second span of the new county bridge across the Scioto and expected to have it all bolted and secure by tonight. When the run-out comes and sweeps out the falsework the big span will swing itself. Mr. Flannigan, Not Alarmed

John P. Flannigan took an optimistic view of the situation, expressing the belief that the river would spend itself before it got as far as Portsmouth. Frank Shoenberger, however, who owns some bottom corn land, gave up in despair believing it no further use to hoe or plow. Bottom land owners up the valley are keeping a close eye on the river.

Foot Is Mashed

James Millburn, who is employed by Kelley Bros., had his left foot mashed Friday morning while at work in New Boston. It was caught in the wheel of a scraper, which he tried to let down. Three toes were badly mangled, that amputation will probably be necessary.

WITH THE SICK

Mr. A. C. Pyles, superintendent of the Buckeye Brick works, and children, Fern and Harold, and Mrs. L. B. Pyles, wife and baby, all of Scioto Furnace, were called here recently by the serious illness of Mrs. Verna Reider, 619 Boundary street. Mrs. Reider has been ill for seven weeks, suffering from a complete nervous breakdown and pleurisy. She has been confined to her bed for the past three weeks and shows no signs of improvement.

Leslie Davidson, of Dayton, has been very ill with tonsillitis for the past week. He is a brother of Vernon Davidson, of Sunny-side.

Dr. G. W. Chabot, who accompanied Mrs. J. B. Cross, of Highland avenue, to Peebles, that she might visit her dying mother, Mrs. Margaret Wilson, reports that she withstood the trip nicely, though she is dangerously ill and had to be placed on a cot. Mrs. Wilson is not expected to live more than a day or two.

The Movies

The management of the Sun Theatre wishes to announce that they are playing "A Fool There Was," the Fox masterpiece, by the request of its patrons, and will be shown today only.

This remarkable drama, in which Robert Hilliard starred and achieved a notable success, created a nationwide discussion at the time of its presentation and had a record-breaking run at the Liberty Theatre in New York City.

Based upon Kipling's poem and Burnes-Jones' famous painting, Mr. Browne has succeeded in creating in "A Fool There Was" a work that, for daring originality and sheer power and moving qualities, outdies, in its own particular field of the drama, any play of recent years. It is the tale of a weak-willed man and a woman of sinister beauty and vampire heart.

Columbia Tonight
Good Program Including Charlie Chaplin in a New Picture.

An unusually attractive program is offered at the Columbia this evening beginning with "The Easterbrook Case," one of those famous Broadway Star Features in three reels.

In this very interesting picture more than a score of the greatest of the Vitaphone company's star performers are used including such persons as Julia Swayne Gordon, Gladys Fitzgerald, L. Rodgers Lyttan, Robert Gaillard, Edward Elkas, Betty Gray and many others, making a picture of the highest class in every respect.

"Beautiful Belinda" is another of those famous Selig Jungle Zoo wild animal pictures, made at the studio of the Selig company in California in conjunction with their wonderful collection of wild animals.

That ever popular Charlie Chaplin is also at the Columbia again tonight in a brand new comedy "The Kid's Auto Races" and if you enjoy Chaplin, you can't afford to miss seeing him in this funny picture.

Tomorrow, Saturday, another big bargain program has been provided consisting of one of those remarkable Vitaphone star feature pictures "The Hand of God" in two stirring reels with that popular child artist Bobby Connelly and an all star cast, three other good pictures including another Charlie Chaplin picture will be offered on this big bargain Saturday program.

Have you noticed the fresh, pleasant, cool air at the Columbia during this hot spell? You don't find many theatres with such a perfect system of ventilation as you will find at the Columbia.

"The Fool" at the beginning of the play, is a virile, big-hearted man, fond of his home, his wife and little child and devoted to wholesome, sport. Then comes the meeting with "The Vampire" who is destined to ultimately ruin and drive him to a degraded death.

Drink and drugs sap his will till at last "The Vampire" is left alone. It is the beginning of the tragic end of "The Fool."

Rained, broken in body and mind, "The Fool" at the last tries to break away from the association that has wrecked and blasted his life. But it is of no use. At the end he tries to crawl to the side of his enslaver, while she laughs cruelly at the spectacle he presents. She sees nothing but what is amusing in the pitiful semblance of manhood that begs her to free him.

"Bootles' Baby" and "The Man On the Case" At Lyric Tonight

The Paramount Pictures Corporation provides a novel entertainment in presenting two great stories as a combination feature. The two subjects correlated in this unusual manner are "Bootles' Baby," the world-renowned story by John Strange Winter, and "The Man On the Case," by Grace Livingston Furriss, one of the greatest comedies from the pen of this noted dramatist. The two stories include every element of dramatic composition, ranging from delicious comedy to thrilling drama.

"Bootles' Baby" is the story of a deserted child, who, totally unconscious of the great good she is performing, restores to her mother the happiness that had departed from her. Portrayed by Mimi Yvonne, the famous child actress, "Bootles' Baby" will long live in the memory as one of the most tender and sympathetic child stories ever related on the screen.

"The Man On the Case," by way of diverting contrast, is a farcical story of a young millionaire who wishes to marry a girl who will love him for himself and not his money, and a sentimental romantic girl who determines to marry only for love, regardless of the financial standing of the man who wins her heart. How the millionaire and the girl meet, under strange and amusing circumstances, and fall madly in love with each other is humorously unfolded on the screen. The combination of these two widely differing subjects forms a feature of rare and diversified appeal.

5c At Temple Theatre
Tonight's program is entitled

"The Living Death," a thrilling drama with an all-star cast, P. A. Turner, Edward J. Peil, and Billie West. The third reel is a "hurler" comedy by Chester Withey and Fay Tincher. The fourth reel is a clever detective story which ends in a romance entitled "The Angel in the Mask," a Thunhouser production.

Three Big Features At the Arcana Theatre Tonight

For tonight at the Arcana, Manager J. F. Potts has secured three big features. First, and foremost will be a heart stirring drama entitled "Within the Gates." Second, a comic—a real stirring, holding rib sort of an affair entitled "When Cupid Crosses the Bay." And last but by no means least will be a comedy drama entitled "The Affair of the Terrace." In this play Ben Wilson, a local favorite, will be seen to great advantage. Don't fail to see this great show tonight. On Saturday Manager Potts will show Charlie Chaplin in a great comedy. And remember, the price is always the same, 5 cents to all. And the Arcana is cool, too.

At The Exhibit

We all know it is 90 or thereabouts in the shade but it isn't necessary to worry about such a trifle as long as the Exhibit Theatre is giving big shows and a cool breeze along with good music for a nickel. Just about the time you are wistfully and becoming disgusted with things in general slip into the Exhibit and get the surprise of your life. There is always at least one good drama that will change your entire aspect of life. Then to top it off there is bound to be a good comedy—for Manager Law shows nothing but up to the minute comedy. Music in the evening is furnished by a high class orchestra. Tonight's dramatic offering is, "The Country Girl," while the comedy is "The Old Batch." Saturday's offering is a two reel special "The Mysterious Airship."

At the Majestic

Bright, vivacious and clever Lois Davis is taking the leading role in a powerful drama showing at the Majestic theatre tonight. "In the Blood" is the name of this feature drama that will undoubtedly please every patron of the Majestic who sees it. The all around good shows at the Majestic are more than pleasing and the crowds are growing. Join them. In addition, tonight, there will be an exceptionally clever comedy. Come here. The place is cool.

At The Pastime

"Sunshine and Shadow" is a two reel Vitaphone drama that is heading the bill at the Pastime theatre tonight. "Rose At the Door" is an Edison one reel comedy. Then there is an Essanay one reel comedy entitled "The Pable of the Husband." This is a good all around program and one that will prove highly entertaining and make you forget the heat. Saturday's bill is also a strong one. "The Place, Time and the Man" is a two reel Es-

TINY RED PIMPLES ON DAY OLD CHILD

Got Larger. Hair All Came Out. Cried Terribly. Could Not Sleep. Had to Walk Floor to Quiet Him. Used Cuticura and Now Well.

La Crosse, Kansas. "When my son was one day old he began breaking out on his face in tiny red pimples that seemed to itch as he was uneasy and could not sleep. The pimples got larger and changed to water blisters. They would break and run and cause new ones to break out until he was covered all over with a thick crust. His head was so sore with him we were afraid to wash it almost. All his hair came out. We kept him on a pillow for fear of breaking the blisters. Every time they broke they seemed to smart and burn, as he would cry terribly. The eruption disappeared the baby. We had to walk the floor with him to quiet him. When he was four weeks old I bought a cake of Cuticura Soap and box of Ointment. The first time I used them he slept better than he had for a long time. He is now, at the age of nine months, well." HURRYING TO WIFE AND BABY, MAN IS KILLED

Instead Of Babe's Fingers The Hand Of Death Reaches Out

Speeding towards Portsmouth, eager to see his wife, and to clasp in his arms his six-months-old baby girl, whom he idolized, Fred Plummer, 31 years old, a well known young man of Vanceburg, Ky., fell beneath the wheels of a C. & O. train late Thursday night and was literally ground to pieces. The grasp of death shattered his fond thoughts of the elation of tiny fingers, and a happy home circle was broken up in a twinkling.

Mrs. Plummer, who has been visiting Mrs. Lee Rank, did not learn of the tragic fate that had befallen her husband until she received a copy of the Noon Extra of The Times today. Upon receipt of the news she swooned away and had to be revived by a physician. She was married to Fred, better known as "Dick" Plummer, on February 22, 1913. Their daughter's name is Ada Mae. Plummer had been working in a button factory near Vanceburg, at whose home Mrs. Plummer was

visiting. The three men boarded the C. & O. train in Vanceburg shortly after eight o'clock last night.

Alva and R. L. Rank, who were near Plummer when he fell beneath the train, succeeded in stopping the train, when the former applied the air. The trainmen did not know what had happened, and the sudden application of the air-brakes almost caused the train to "buckle," as it was a light train and was traveling at a good rate of speed.

Squire James Braden, of Fullerton, was called to South Portsmouth Friday morning and held an inquest in the case, taking the testimony of Alva and R. L. Rank, eye-witnesses to the accident.

Plummer, whose life was snuffed out so suddenly, was 31 years old and was one of the best known young men of Vanceburg. He was a son of Mr. and Mrs. Thomas Plummer, and in addition to his parents and wife and little girl, he leaves five sisters, as follows: Mrs. Ethel Tyler, of Ripley, O.; Mrs. Bertha Rea, of Concord, Ky.; Mrs. Della Sharp, of Newport, Ky.; Mrs. Pearl Cramer, of Cincinnati; and Miss Ada Plummer at home.

Just five years ago Plummer's brother, Arthur Plummer, was also killed by a C. & O. train. He was run down just below Vanceburg, and he, too, was ground to pieces. Mrs. Plummer before her marriage was Miss Inez Lawson, and she has relatives in this city.

200 HOUSES IN LIMA ARE UNDER WATER AS OTTAWA RIVER RISES SIX INCHES AN HOUR

ONE WOMAN DIES, BRIDGES WASHED AWAY, WATER NEAR 1913 HIGH MARK

Lima, O., July 16—Ottawa river is racing through Lima, driving families to the higher portions of the city and tearing out bridges and viaducts. Since midnight it has risen on an average of six inches an hour and at 7 a. m. was within 15 inches of high water mark of 1913.

Every policeman and firemen in the city was kept on duty all night aiding in rescue work.

Towards Elida farmers report the water was higher than in the big flood. Wheat has been beaten down so as to be almost a total loss and the hay crop has been ruined.

Over 200 houses are under water and the river is full of debris indicating that above Lima considerable damage has been done.

One woman died from burns received when gas in her cellar was exploded and a lamp she was carrying threw burning oil over her.

Rising water had put out gas under a water heater and she lighted a lamp and went to investigate. Four little children in the house received minor injuries. The house caught fire but was put out.

BERNSTORFF TO MEET WITH LANSING TODAY

Washington, July 16.—Count Von Bernstorff, the German ambassador, had an engagement today to confer with Secretary of State Lansing on the situation that has arisen between Germany and the United States over Germany's method of submarine warfare.

The ambassador was to present the German view of the last United States note for settlement of the problem of undersea warfare. Such an adjustment would bring about a definite understanding not only as to Germany's submarine campaign, but also as to England's order in council which Germany holds responsible for her undersea activities. Count Von Bernstorff, it is understood, hopes that there may be a possibility of mediation on the part of the United States between Great Britain and Germany which eventually may result in the establishment of the freedom of seas for which the United States is contending.

That Germany is willing to join the United States in an effort to establish the American principle was emphasized in the latest German note, according to

Count Von Bernstorff, who is certain his government will accept a proffer on the part of the United States of its good offices. Germany previously has declared a willingness to abandon her submarine warfare if England will give up her policy of starving the people.

It has been indicated by officials of the Washington government that negotiations to adjust the question could only be undertaken provided assurances were given that in the meantime German submarine commanders would govern themselves according to the principle for which the United States contends—that Americans on unarmed and non-resisting ships be made safe.

The fact, however, that even enemy ships have not been torpedoed without warning in the last month was the probability that this practice will be continued is emphasized in German official circles.

Admission is made by United States officials that if the practice were continued the principles for which the United States asked assurances in its last note to Germany would largely be complied with.

SCIOTO RIVER ON RAMPAGE AT KENTON, SIX BLOCKS IN COLUMBUS FLOODED

Kenton, O., July 16—The Scioto river was within 15 inches of the 1913 flood stage here this morning and still rising. The worst flood in the history of the city is feared as the result of the torrential rains of last night. One hundred families have been rescued by boats since 3 o'clock this morning.

The town of Foraker on the Scioto Marsh is under water caused by a break in the river bank at that point. It is feared that lives may have been lost there.

A freight train on the Toledo and Ohio Central railroad struck a washout along the river at the south end of Kenton this morning and Engineer Muslane, braving the torrent, rescued his fireman, Jack Williams, who was pinned under the fire box, in danger of drowning or scalding to death. Williams is in a critical condition and may die.

LEVEE IN COLUMBUS GOES

Columbus, July 16—High waters in the Olentangy river here today broke through the old city levee on the north side and flooded six city blocks, causing damage estimated at several thousand dollars.

The flooded portion extends from Fifth to King avenues along the east bank of the river. A large city playground and hundreds of small garden plots used by children have been completely covered by the rising waters. The river has reached a 13 foot stage, the highest since the 1913 flood.

The levee which was broken down by the waters had been weakened by the 1913 flood and had never been repaired. The flooded section is not a residence district, but is bordered on higher ground by North Side homes.

GERMAN SUBMARINE U-51 GOES DOWN

London, July 16—The German submarine U-51 has been sunk in the Black Sea by Russian warships, according to information received from Varna, a Bulgarian port on the Black Sea, by the Athens correspondent of the Exchange Telegraph Co.

The submarine U-51 gained fame by shelling the British blockade and passing through the Strait of Gibraltar. It left Wilhelmshaven, the great German base, to operate against the Allied fleet in the Dardanelles and was reported to have been successful in its mission. The U-51 has been credited with sinking several vessels belonging to the Allies, including the British battleship, the *Mersey*.

The British blockading fleet off Gibraltar was reported to have been warned of the approach of the U-51,

TWO GIRLS DROWN IN OHIO RIVER

Pittsburgh, July 16—Lillian Elkins, aged 15, and Anna Rosengreen, aged 16, both of Sewickley Heights, a suburb, were drowned in the Ohio river near Lock No. 3, shortly before last midnight, when a canoe in which they were riding, capsized. John Gleason and Frank Rosengreen, brother of one of the girls, who were also in the canoe, were rescued.

Paris, July 16.—Hill No. 235, in the forest of the Argonne, which was stormed by the Germans early this week, has been recaptured by the French forces, according to the official statement given out this afternoon by the French war department.

THAW CASE NOT OVER, STATE PLANS APPEAL

New York, July 16—A decision by Supreme Court Justice Hendrick today, on the question whether Harry K. Thaw is now sane, will mark the end of Thaw's long fight for freedom. Counsel for both the state and Thaw had announced their intention to appeal if Justice Hendrick's decision was unfavorable.

Justice Hendrick had promised to announce his decision in court today. A jury which sat in Thaw's sanity trial had rendered a verdict that Thaw is sane, but Justice Hendrick was bound only to regard it as advisory. The real decision rested with him.

It was believed that in the event of a decision by Justice Hendrick that Thaw is sane, he would be admitted to bail, probably in the sum of \$40,000. It was stated, however, that Justice Hendrick could order his return to Ludlow street jail or the Matteawan asylum until the higher court had settled the case. Thaw's counsel was ready to provide bail.

BRITISH CRUISER WEARS DISGUISE

New York, July 16—The British armored cruiser of the Suffolk and Essex class, which stands guard at sea several miles from the entrance to New York harbor, to prevent the departure of German merchant vessels, is wearing a novel war disguise, as seen by observers of the ocean yacht races held off Sandy Hook yesterday. The cruiser's star-board side is painted in ordinary dull gray war color, while her port side has been so decorated as to conceal her identity.

AN APPLICATION OF WHITE PAINT ON HER PORT SIDE MAKES HER APPEAR TO HAVE A CLIPPER BOW, WHILE A BAND OF WHITE ALONG THE UPPER PART OF HER HULL AND HER PORT QUARTER MAKES HER SEEM MUCH SMALLER THAN SHE REALLY IS. NOTHING LIKE HATE.

Between the roars of cannon and profound German professors may be heard loudly discussing the self-addressed question: "Why does all the world hate Germany?"

The best answer thereto, to use some contemporary slang is: There ain't no such animal. For the learned professors to profoundly debate their own assumption is an aggravated and warped conceit. Indisputably a large part of the world is, just at the present time, hostile to Germany, and goes without saying, since a considerable portion is now at war with her and it is altogether natural in such a conflict prejudice and bias of nationalities and alliances should develop against her. But the professors make no allowance for this. They make the broad assertion that every other race hates the Germans now, did before the war began and is going to go on doing so after the war is over. And all of which, we insist, is mistaken and unjust. As between races there is no more prejudice against the German than against any other, and prejudice is a long way from hate. Hate is based upon some knowledge and some cause, prejudice most often springs out of total ignorance and has no basis of fact; it is a figment of the imagination, as it were, and disappears in the face of knowledge and intercourse. Practically every nationality, we will illustrate by saying, has felt the effect of prejudice in this country. The Germans have experienced it in no such bitterness as that with which it assailed the Irish in the past. Up to "the fifties," when New England was the greater part of the country, it was common "that no Irish need apply." Today, where they are reckoned in large bodies there is more prejudice against the Jews, the Italians, the Poles, the Greeks, to say nothing of the Hungarians, Armenians, Croats, Russians and Turks, more a thousand times, than against Germans. As a matter of fact, the Germans are much admired, because of their thrift, industry, love of home and generally law-abiding conduct. And while it is not to be denied that a majority of Americans sympathize with the Allies as against Germany, the preponderance is by no means as great as is assumed and would be much less were it not for the unfortunate truth, that mistaking the clamor of the metropolitan press for more than it voiced, the German press jumped to the conclusion the whole nation was against the Germans and by the very fury of protest drove an impressive element, that was disposed to settled neutrality to sympathy with the other side, not realizing in their zeal for the cause of the Fatherland that the surest way to alienate sympathy is to mistrust it and reproach with unbrotherliness.

In the midst of present clash and rancor it is impossible, perhaps, to appreciate this truth, but when the world again comes to peace its exactness will gradually come to appreciation. That as neighbors and acquaintances the Germans are esteemed and liked as well as any others, perhaps, even a bit more, because as such least of all are they given to wrangling and contention and their peaceful conduct will seem all the sweeter after the dreadful conflict is over.

THE OHIO LIQUOR BATTLE.

With both sides girding their loins and preparing for a finish fight on the liquor question in Ohio this fall, it looks as though there will be enough excitement to suit the most exacting person. We believe that the majority of Ohio citizens are growing heartily weary of these liquor fights and we also believe that there will be a decisive settlement one way or another so that the matter will not be injected into state affairs for years to come.

We suppose that, as usual, Scioto county, will be one of the storm centers of the controversy. That seems to be our fate down here, with leaders on both sides of national prominence living in our midst. While we believe that each man should stand up valiantly for what he believes to be right, we do hope that there will be a minimum of bad feeling over the matter and a minimum of personal abuse and vituperation. No votes are made in this way, no good comes of it, and the only result is a community divided.

There will be no change in the attitude of The Times in this campaign from that of the past. We consider it our mission to print the news fairly and impartially and to afford opportunity to all sides to express their opinions and their arguments in our advertising columns. That has been our attitude on all public questions and we accept legitimate advertising from responsible persons and political parties, regardless of our own opinions or beliefs. In the campaign over the prohibition amendment this fall, we will report as news, fully and without bias, the various activities and we will accept paid advertising from those engaged in the controversy, subject to our own supervision and judgment as to its lawfulness. We do not propose to allow any man or set of men to get us in jail if we know it, nor do we propose to be caught up again for libel suits for advertising matter, if we can help it.

We deem it advisable to make this statement early that there may be no misunderstanding in any quarter.

"We ain't no engineer," civil or otherwise, but it strikes us the plan to leave openings in the flood wall would be vastly improved by carrying the streets over, instead of through.

HOT WEATHER HINTS.

AUTOMOBILE LIGHTS.

With the completion of the paving on the Chillicothe pike to a point more than five miles out of town, and the blocking of other roads, the former roadway has become the favorite riding spot for automobiles, and dozens and dozens of them are, using the pike each evening, going out as far as the underground crossing, and then returning to the city. It makes a most delightful ride and we are glad to see people enjoying themselves.

There is one thing about it however, and that is the most extreme caution should be used in order to avoid accident. The speed limit should be strictly adhered to and the most careful attention given to the running of the car. The extremely bright lights on cars too make for a dangerous situation after dark. It is almost impossible for a driver to see where he is going when approaching a car with powerful electric lights, and they are nearly all electric these days. With one car trailing another, the danger is added to that much, and we very much fear that there may be a sad accident some of these days unless attention is given to this matter.

Slow down always in passing a car coming towards you, have your car under perfect control. In bad places, or all very narrow roads it is a good idea for one car to pull over and throw on the dimmers or side lights. It may prevent a collision.

And another thing—If any man can show why it is necessary to travel with a cut-out working on paved streets or roadways, we will give him a chroma. They simply go to make the days and nights hideous and noise dust to make traveling more uncomfortable for other people. Their value as an aid to locomotion has long since been disproved and many of the new models are not having them at all.

Be careful. Do not drive too fast. Pass each other slowly. Do your share towards making automobilism safe, sane and comfortable.

If the innumerable army of Times kids knew what was going to happen to them, what a mighty clamor they would send up. It was learned yesterday, that when the flood wall is extended, that portion of the old, which elbows in front of The Times office and forms a roosting place for the newsies, is going to be blown up. Dynamite will have to be used in the process and may be the kids will get some compensating enjoyment out of that.

Director Link isn't crossing any bridges before he comes to them. Not attempting the impossible, it can be taken he will handle the possible with good judgment.

A sort of tit for tat game is the bulls asserting a billion bushel wheat crop and the bears claiming rust has appeared.

Sketches of Little OLD NEW YORK

By C. J. McIntyre

New York, July 16.—Lillian Lorraine, once called by Florenz Ziegfeld himself his prettiest show girl, has introduced a novelty to Broadway—the dernier cri if you will, in divorce announcements. Some months ago Miss Lorraine married a young business man of Chicago.

After several weeks of honeymooning around New York they both decided that married life was not what a lot of the long-haired poets said about it and—well one night Miss Lorraine tossed her new hubby's things out of a very handsome apartment house.

Just recently she has sent out these printed announcements: "Lillian Lorraine, formerly with Ziegfeld's Polles, announces that she will soon see her husband, Mr. Griesheimer, for divorce."

Up in the Bronx the secretary of a very large Sunday school league has sent warning to the newspapers that "the stealing of balls after the games cannot be tolerated in a Sunday School League."

And down at Coney Island on the Fourth, Dr. Guy Campbell overheard a lady arguing with her zeppelin about Pan whom she always thought was a woman. "Oh no," said the escort with an air of finality. "Oh no, Pan was a man, you know—Peter Pan."

The first capture made for the Hippodrome by Charles Dillingham, who will run the big house next year was John Philip Sousa, the famous bandmaster. He will bring his band of sixty-five men to the Hipp and will render music instead of the orchestra. Sousa is now preparing a march to signalize the opening of the Hippodrome.

Charles Purcell and John Danismore were in a Broadway cafe when the latter spoke of a well known New Yorker. "He's an ideal fellow," said

To Girls in General
I loved you at the kitchen sink,
In dust, sifting ashes white;
I loved you at the roller rink,
When skates had sprangled you
left and right.

I loved you long, I loved you well,
I loved you when your hair was
wet;
I loved you when you tripped
and fell
In one new gown that haunts
me yet.

I loved you when you learned to
swim,
With spluttering face you still
had chum;
I mailed at every blessed "him"
Who tried to stay your foun-
dering arm.

I loved you on the tennis court;
When wildly you would prance
and shriek;
And on the bleachers—I'm a
sport,
I tried not to frown when you
would speak.

But, ah, the end—a dismal lot—
No more your charms to me are
dear;
The limit's reached—I love you
no
more.

POLLY AND HER PALS

GREAT SCOTT---THIS IS AN AWFUL SLIP OF PA'S

MUST SECURE A LICENSE

Samuel Burke, whose "jitney" bus was taken in charge by the police Thursday, proved an alibi. He convinced the officials that he had arranged to operate the machine under a dealer's license, but Chauffeur McDaniels had neglected to secure the license at the Prichard garage. McDaniels was found out with the machine again Friday morning and was given a severe warning by the mayor that he must not attempt to operate it as a "jitney" until he first secured a state license.

HURRYING TO WIFE AND BABY, MAN IS KILLED

Instead Of Babe's Fingers The Hand Of Death Reaches Out

Speeding towards Portsmouth, eager to see his wife, and to clasp in his arms his six-months-old baby girl, whom he idolized, Fred Plummer, 31 years old, a well known young man of Vanceburg, Ky., fell beneath the wheels of a C. & O. train late Thursday night and was literally ground to pieces. The icy grasp of death shattered his fond thoughts of the clutch of tiny fingers, and a happy home circle was broken up in a twinkling.

Mrs. Plummer, who has been visiting Mrs. Lee Ruark, of this city, received the tragic news about midnight, and is crushed with her terrible sorrow. The mangled remains of her husband were taken back to Vanceburg this afternoon.

Relatives of the dead man arrived on C. & O. passenger train No. 8 this morning and took charge of the body.

The scene of the tragic affair was about half a mile west of South Portsmouth. According to the testimony of R. L. and Alva Ruark, who accompanied Plummer, he was sitting on top of a coal car and was in the act of climbing down off it, as the train neared South Portsmouth, when he lost his balance and fell beneath the wheels of the train, which was eastbound train No. 831, and was conveying a train load of empty cars from Covington to Russell, Ky.

The wheels of twenty cars passed over Plummer and his body was hardly recognizable when found. R. L. Ruark, who was with Plummer,

is the husband of Mrs. Lee Ruark, at whose home Mrs. Plummer was visiting. The three men boarded the C. & O. train in Vanceburg shortly after eight o'clock last night.

Alva and R. L. Ruark, who were near Plummer when he fell beneath the train, succeeded in stopping the train, when the former applied the air. The trainmen did not know what had happened, and the sudden application of the air-brakes almost caused the train to "buckle," as it was a light train and was traveling at a good rate of speed.

Squire James Bracken, of Fullerton, was called to South Portsmouth Friday morning and held an inquest in the case, taking the testimony of Alva and R. L. Ruark, eye-witnesses to the accident.

Plummer, whose life was snuffed out so suddenly, was 31 years old and was one of the best known young men of Vanceburg. He was a son of Mr. and Mrs. Thomas Plummer, and in addition to his parents and wife and little girl, he leaves five sisters, as follows: Mrs. Ethel Tyler, of Ripley, O.; Mrs. Bertha Rea, of Concord, Ky.; Mrs. Della Sharp, of Newport, Ky.; Mrs. Pearl Cramer, of Cincinnati; and Miss Ada Plummer at home.

Just five years ago Plummer's brother, Arthur Plummer, was also killed by a C. & O. train. He was run down just below Vanceburg, and he, too, was ground to pieces. Mrs. Plummer before her marriage was Miss Inez Lawson, and she has relatives in this city.

Fairest Ohio Girls Dine With Governor

Columbus, Ohio, July 16.—Columbus Thursday was invaded by a bevy of Ohio's fairest daughters. They captured the city by storm and carried off in their laughing midst Governor Willis and Mayor Karb, of Columbus.

The occasion was the season's closing of the fifty most beautiful women of Ohio, as picked by the nation picture public of the state, for the American Art Film Co., of Columbus, for the purpose of perpetuating their charms on motion picture film.

From these fifty beauties will be picked the six who will be the guests of the film company for a month's tour of the west, including Yellowstone Park and the two exhibitions, of the Ohio Beauty Special which will leave August 12th.

The morning was spent in photographing the women in animation. At 12:45 the assemblage sat down to an elaborate luncheon at the Southern Hotel, presided over by W. L. Mackey, general manager of the Exposition Tourists Company, at which were present as honored guests, Governor Willis and wife, Mayor Karb and wife, of Columbus, and Robert O'Brien, representing the Columbus chamber of commerce.

Short addresses were made by Governor Willis, Mayor Karb, Mr. O'Brien and Mary Ellsworth Fuller, of Newark.

Following an informal reception, tendered by Columbus girls in the Southern lobby, the entire party spent the afternoon at the

Hartman theatre as guests of the management.

The Misses Hazel Holcomb and Alma Davis, of this city, who are entered in the beauty contest, were among the fifty beauties. Miss Holcomb is employed in the Columbia theatre here.

INQUIRES OF HIGH YALLER

Police Chief W. T. McCarty claims to have received a letter Thursday from a sister of Henry Glenn, alias "High Yaller," the alleged gunman in the Dancus murder case. Writing from her home in South Carolina, she inquires if her brother is under arrest, declaring that if so she wants to provide him with a lawyer to defend him.

ARGUMENTS IN PLUMBERS SUIT TO BE ON JULY 27

Examination of witnesses in the injunction and dissolution suit against the Building Trades Council of this city was concluded about five o'clock Thursday afternoon.

Judge Tarbell fixed the date for hearing the arguments of the attorneys for Tuesday morning, July 27th. In the meantime, he will review the evidence and exhibits, and consult the legal authorities at his home in Georgetown. Among the exhibits are the constitution and by-laws of the Building Trades Council and its auxiliary organizations, the constitution and by-laws of the Master Plumbers' Association, and copies of letters alleged to have a bearing on the case. Attorneys will also file briefs in the morning. A decision should be forthcoming soon after the arguments of the attorneys are made.

Before adjourning court, Judge Tarbell requested that a list of the union men in each craft be furnished him; also an estimated number of men employed in each craft in the city, union and non-union. Union officials will furnish this information.

Henry Egbert, secretary of the Journeymen Plumbers' local, followed William Tritscheller on the stand Thursday afternoon. He produced the minutes of the local, which were given to the court for his information. He also stated that the local was affiliated with the Central Labor Council, as well as the Building Trades Council.

Egbert testified that journeymen plumbers are compelled to undergo an examination as to their competency before they are qualified to receive the specific wage scale. Only the minimum wage is fixed by working agreements, he said. He also stated that a committee from the Building Trades Council endeavored to reach an amicable settlement with the Master Plumbers, without success.

Fred Burkhardt, a journeymen plumber, who also testified that a committee from the Master Plumbers' Association, composed of W. W. Watrous, William Tritscheller and Fred Schmidt, submitted a proposition to a committee from the local, composed of Burkhardt, Bonner and McCarty, that they would agree to the raise in wages if the journeymen plumbers would work only for the members of the Master Plumbers' Association.

Attorney Miller, for the defendants, attempted to show that the object of the master plumbers was to freeze out the little fellows in the business, and that they insisted upon some of the rules to which they are now objecting.

In rebuttal, Judge Blair called Watrous, Tritscheller and Schmidt to the stand in order, all of whom testified that no such proposition ever came from the Master Plumbers' Association to their knowledge. Watrous and Tritscheller stated that such a proposition was hinted at by the journeymen's committee, but that they refused it. Schmidt could not remember of anyone on either side mentioning such a proposition.

Keeping Down The Odors

The mayor has asked Dr. W. W. Smith, city health officer, to insist upon butchers carrying out their agreement entered into last year to make daily deliveries of their refuse. The health officer is also requested to inspect the Portsmouth Chemical Company's plant, as complaints of offensive odors in that vicinity have been heard since the extreme hot weather set in.

Stolen Coal Recovered

Officer Roy Moore on Friday morning recovered a coat belonging to Senator Thomas Bagby, of Garrison, Ky., which was stolen while he was playing pool at Capt. Fred Winter's place last Saturday. It had been sold to W. A. Holmes, a second-hand dealer. Moore also found some valuable letters belonging to Bagby. They had been strewn along the street. A C. & O. passenger train was also in the coat, was not recovered.

The Movies

"Bootles' Baby" and "The Man On the Case" At Lyric Today

The Paramount Pictures Corporation provides a novel entertainment in presenting two great stories as a combination feature. The two subjects correlated in this unusual manner are "Bootles' Baby," the world-renowned story by John Strange Winter, and "The Man On the Case," by Grace Livingston Furniss, one of the greatest comedies from the pen of this noted dramatist. The two stories include every element of dramatic composition, ranging from delicious comedy to thrilling drama. "Bootles' Baby" is the story of a deserted child, who, totally unconscious of the great good she is performing, restores to her mother the happiness that had departed from her. Portrayed by

YORK PLACE WILL LOOK LIKE AN ARMY CAMP

It was definitely announced at the regular meeting of Portsmouth Council, Jr. O. U. A. M., Thursday evening, that the time of the state encampment of the uniformed rank of the order would be held in this city from August 14 to August 22 in York park. Three regiments will participate in the encampment.

The regiments are equipped as completely as the regular army, having machine guns, wireless equipment, and all other accoutrements, in addition to each member being fully provided with the latest equipment.

Dress parades and fancy drills will feature each day of the encampment and the public is cordially invited to witness the maneuvers.

On August 21 the big sham battle in which all companies will take part, will be held at the ball park at Millbrook. This is the

big feature of the encampment each year, and is staged with a realism that is thrilling. An admission will be charged to the battle.

The regimental minstrel performance will be held Wednesday evening, August 18, at the high school auditorium. This organization is said to be on a par with traveling companies, carrying its own musicians, balladists and comedians.

Tomorrow evening the Council will meet in special session to confer the ritualistic work upon a class of twenty candidates from Fire Brick, Ky., and about ten from Wakenfield. The local degree team expects to cover itself with glory on that occasion, and practiced up a bit last evening, when John Shoomaker was initiated into membership. A big banquet and social session will follow the lodge meeting Saturday evening.

INQUIRE ABOUT OUR DEAD CURFEW

The city officials are in receipt of an inquiry from the municipal court of Concord, N. H., asking about Portsmouth's curfew ordinance and its practicability. The mayor in reply says there can be no doubt about the curfew having a good effect and in his opinion it should be continued.

Like To Read? Then Ask State For Books

Columbus, July 16.—Columbus, Ohio, has gone into the business of helping vacationists to have a good time.

Staff Librarian C. G. Galbreath announced today he will send an assortment of books, picked particularly to suit the reader's

wishes, to any part of the United States for the vacation period. The only cost to the individual will be transportation charges. They may be sent either by express or parcel post and may be returned when the vacation is over. The travelling library department has charge of the work, and applications for books should be made to it at Columbus.

"We have made this arrangement to suit persons who are going to the country or any other location who like to read while resting but who do not wish to fill space in their travelling cases with heavy books," said Librarian Galbreath. "Usually these shipments may contain a number of fiction books, but we do not make up all-fiction assortments."

"Any person who wishes to take advantage of this arrangement may write to the state travelling library, stating the kind of books he would prefer. We will then send him a list of available volumes and he can make his choice. We will pack these in boxes and ship them to him 'collect.' The plan is an adaptation of the usual work of the travelling library, applied particularly to vacationists."

Histories have been in great demand at the state library since the European war began, Mr. Galbreath declared. This demand extends to books of travel, describing the lands now involved in conflict and those treating of the social and industrial life of the warring nations.

Plans are being made by the library to develop community libraries under the supervision of county school superintendents when school starts in the fall. Books will be supplied from the travelling library, being sent to the community stations for limited periods.

SHE'S INVENTOR OF BOX FURNITURE

Miss Louise Brigham. "It's been pleasure, not work," says Miss Louise Brigham, author and inventor of the now world famous "box furniture," an extensive exhibit of which has proved the center of interest to visitors to the palace of education at the San Francisco fair.

COAL MEN QUIT FOR FUNERAL

Pittsburgh, July 16.—Coal operators and miners in Western Pennsylvania and West Virginia will tomorrow pay tribute to the memory of Dr. Joseph Holmes, former director of the United States Bureau of Mines, whose funeral will be held in Washington at that time. Dr. Holmes died Tuesday in Colorado, of tuberculosis.

Officials of the West Virginia Pittsburgh Coal Company announced last night that the mines of the company would be closed all day, while officials of various other coal and coke companies, in conferences today, expected to take similar action.

INVESTIGATE LOUISVILLE EXPLOSION

Louisville, Ky., July 16.—Believing the explosion which wrecked the plant of the United Safety Powder Company, near Louisville, last Monday afternoon, and which caused the loss of four lives, including that of Robert S. Waddell, the superintendent, was caused by an outside agency, an exhaustive investigation into the circumstances has been ordered by the board of directors of that concern. Until about a month ago, and since the beginning of the war in Europe, the plant has been under lease to a Canadian company manufacturing high explosives.

MARYE WON'T RESIGN
San Francisco, July 16.—Denial of the report that George T. Marye, ambassador to Russia, is to resign, was made today by Mrs. Marye just returned from Petrograd to her home here recently to gain relaxation from the war conditions in Europe. Mrs. Marye said she has planned to sail for the Orient next month on her way to join her husband in Petrograd.

FORMER OHIOAN DIES
Reno, Nev., July 16.—William Gordon of New York City, died here last night of acute neuritis. Gordon has been in Reno since March for his health. Before coming West Gordon had offices in Wall Street, New York. He formerly was a resident of Cleveland, O.

CHOLERA IN BUDAPEST
Paris, July 16.—A Havas dispatch from Geneva says information has been received there from Budapest to the effect that 553 cases of cholera developed in Hungary during the week of June 28, with 291 deaths. Twenty-four cases out of a total of 53 in the army are said to have resulted fatally.

BEFORE and AFTER
